IN CELEBRATION OF UNITY, PEACE, AND A SHARED FUTURE

BUILDING OUR FUTURE TOGETHER

COMMEMORATING

THE 80TH ANNIVERSARY OF THE UNITED NATIONS

THE 10TH ANNIVERSARY OF WOGC

Building Our Future Together

COMMEMORATIVE EDITION

Mr.Alan Dong

Acting Chairman of the World Organization of Governance and Competitiveness (WOGC)
Chairman of the World Governance and Strategic Cooperation International Organization (WGSC)

Mr. Alan Dong is a distinguished international strategist and visionary leader in the field of global governance and sustainable development. He currently serves as Acting Chairman of the World Organization of Governance and Competitiveness (WOGC) and Chairman of the World Governance and Strategic Cooperation International Organization (WGSC).

With extensive experience in global institutional management and strategic planning, Mr. Dong has played a central role in advancing multilateral cooperation and policy innovation under the framework of the United Nations Sustainable Development Goals (SDGs). He actively promotes dialogue and collaboration among governments, international organizations, and the private sector to foster inclusive growth, technological progress, and long-term stability.

As Acting Chairman of WOGC, Mr. Dong upholds the organization's founding mission of promoting peace, shared prosperity, and collective progress through strategic cooperation and governance reform. As Chairman of WGSC — a key subsidiary body of WOGC — he leads efforts to strengthen institutional capacity, deepen international partnerships, and advance cooperation in emerging areas such as the digital economy, clean energy, public health, and scientific innovation.

Mr. Alan Dong is widely recognized for his diplomatic acumen, forward-looking vision, and outstanding leadership. His commitment to openness, inclusiveness, and pragmatic action continues to drive the modernization of global governance and the realization of a Community with a Shared Future for Mankind.

FOREWORD

Our world is facing challenges on every front. Since the United Nations reflects that world in all its aspects, we feel it in all our work.

These are times of intense uncertainty and unpredictability. And yet, certain truths have never been more clear: The United Nations has never been more needed. Our values have never been more relevant. And the needs have never been greater.

At the same time, we know the more the UN does together to address big challenges around the world, the less the burden on individual countries to do it alone. The United Nations stands out as the essential one-of-a-kind meeting ground to advance peace, sustainable development, and human rights.

But resources are shrinking across the board — and they have been for a long time. For example, for at least the past seven years, the United Nations has faced a liquidity crisis because not all Member States pay in full, and many also do not pay on time.

From day one of my mandate, we embarked on an ambitious reform agenda to strengthen how we work and deliver: To be more effective and cost-effective. To simplify procedures and decentralize decisions. To enhance transparency and accountability. To shift capacities to areas such as data and digital.

And, significantly, the Pact for the Future and UN 2.0 are exactly about updating the UN for the 21st century. These efforts are not ends in themselves. They are about better serving people whose very lives depend on us. They are about hardworking taxpayers around the world who underwrite everything we do. And they are about ensuring the right conditions for everyone serving under the UN flag as they undertake their critical work.

For all these reasons, it is essential that an organizational system as complex and crucial as the United Nations subjects itself to rigorous and regular scrutiny to assess its fitness for purpose in carrying out its goals efficiently.

And this 80th anniversary year of the United Nations is a prime moment to expand all our efforts, recognizing the need for even greater urgency and ambition.

That is why I have informed UN Member States yesterday that I am officially launching what we call the UN80 Initiative. I have appointed a dedicated internal Task Force led by Under-Secretary-General Guy Ryder, and composed of principals representing the entire UN system.

The objective will be to present to Member States proposals in three areas: First, rapidly identifying efficiencies and improvements in the way we work. Second, thoroughly reviewing the implementation of all mandates given to us by Member States, which have significantly increased in recent years. Third, a strategic review of deeper, more structural changes and programme realignment in the UN system.

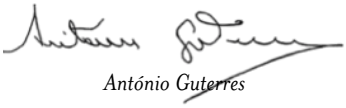

Under the leadership of the President of the General Assembly, I will consult closely and regularly with all Member States on the progress made, seeking guidance on the way forward and presenting concrete decisions for discussion and decision-making when appropriate.

My objective is to move as soon as possible in areas where I have the authority — and to urge Member States to consider the many decisions that rest with them.

This goes far beyond the technical. Budgets at the United Nations are not just numbers on a balance sheet — they are a matter of life and death for millions around the world. We must ensure value for money while advancing shared values.

The need is great and the goal is clear: An even stronger and more effective United Nations that delivers for people and is tuned to the 21st century.

And I thank you.

António Guterres

Secretary-General of the United Nations

New York, 2025

SECRETARIES-GENERAL OF THE UNITED NATIONS 5-6

THE SUSTAINABLE DEVELOPMENT GOALS 7-13

MESSAGE FROM THE CHAIRMAN OF THE ORGANIZATION 14

MESSAGE FROM THE SECRETARY GENERAL OF THE ORGANIZATION 15

ORGANIZATION OVERVIEW 16-18

ACTIVITIES OF THE NEW YORK HEADQUARTERS AND INTERNATIONAL COOPERATION 19-31

GLOBAL STRATEGIC COOPERATION AND HIGH-LEVEL EXCHANGES 32-49

INTRODUCTION TO DIRECTLY AFFILIATED INSTITUTIONS OF THE ORGANIZATION 50-66

SECRETARIES-GENERAL OF THE UNITED NATIONS

Appointed by the General Assembly upon the recommendation of the Security Council, and described by the Charter of the United Nations as the chief administrative officer of the Organization, the Secretary-General establishes general policies and provides overall guidance to the United Nations. Equal parts diplomat, advocate, civil servant and manager, the Secretary-General is a symbol of UN ideals and a vocal champion for the needs and interests of the world's peoples.

1 JANUARY 1952/UN PHOTO

TRYGVE LIE (NORWAY)

1946–1952

"Our organization did not come into being spontaneously. It emerged during a long period of intense discussion between governments and among members of the public who energetically seized the unprecedented opportunity to express their views on every detail of the Charter during its development."

1 JUNE 1959/UN PHOTO/JO

DAG HAMMARSKJÖLD (SWEDEN)

1953–1961

"[I]t is important to remember that the work of building peace is a day-by-day, week-by-week and year-by-year affair. It is rarely marked by much-publicized achievements. It consists rather in continuing accommodations of differing interests and differing points of view and in a continuing effort to remove those obstacles that divide and hamper men and nations. For such purposes the Organization was created, and these it is steadily seeking to fulfil."

1 NOVEMBER 1962/UN PHOTO

U THANT (BURMA, TODAY MYANMAR)

1961–1971

"The changing patterns of endeavour which man weaves in his search for peace, and in his efforts 'to promote social progress and better standards of life in larger freedom', are reflected, with all their complexities, in the many and diverse activities of the United Nations and the intergovernmental agencies related to it. These organizations serve, in a sense, as looms of history where the strands of human hopes and aspirations can be woven together into action by co-operation between nations."

1 JANUARY 1980/UN PHOTO/D BURNETT

KURT WALDHEIM (AUSTRIA)

1972–1981

"[T]he work of the United Nations has changed and expanded since its foundation ... . But despite the movement of the world organization into new fields of activity not anticipated by its founders, the essential objectives have not changed. These are the restoration and establishment of lasting peace; the elimination of injustice and oppression; and the eradication of human suffering and misery in all its forms."

16 DECEMBER 1981/UN PHOTO/BACKRACH

JAVIER PÉREZ DE CUÉLLAR (PERU)

1982–1991

"Far removed from the headlines is the quiet drama, the unsung heroism infusing the enterprise of the United Nations in far-flung lands. Unarmed, a blue-bereted soldier dies while trying to keep apart warring parties in a country not his own; a tree is planted to hold back the encroaching desert; a shelter is built for refugees to provide against the coming monsoon; and a malnourished child receives the food vital to her very existence. This is the human face of plans and programmes launched by the world body."

3 DECEMBER 1991/UN PHOTO/MILTON GRANT

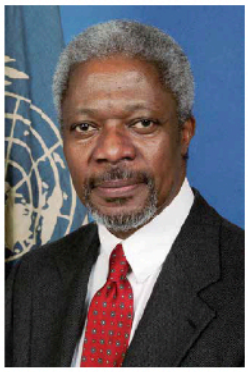

BOUTROS BOUTROS-GHALI (EGYPT)

1992–1996

"For five decades, the United Nations has brought nations together to deal with challenges that no single nation could resolve on its own. Through the United Nations, the world has embraced the ideals of peace and security and has pledged itself to the goals of development and respect for human rights and international law. Within its halls, consensus can be built, sometimes on issues where Member States initially had diametrically opposed views, and strategies have been devised and implemented to realize the vision of a better world for all humanity."

DID YOU KNOW

... that Gladwyn Jebb (United Kingdom) served as Acting Secretary-General from 24 October 1945 to 1 February 1946?

17 DECEMBER 1996/UN PHOTO/MILTON GRANT

21 JULY 2011/UN PHOTO/MARK GARTEN

1 JANUARY 2017/UN PHOTO/MARK GARTEN

KOFI ANNAN (GHANA)

1997–2006

"The end of the cold war has encouraged democratization in all parts of the world, but it has also brought increasing national and ethnic strife to many regions. The globalization of economic activity and information has generated untold prosperity and new opportunities, but a growing number of people remain marginalized, mired in chronic, debilitating poverty. The consequences of these and other trends are increasingly felt across national boundaries and require collective action by the international community. More and more in this global age, people and nations are turning to the United Nations, the world's premier global institution."

BAN KI-MOON (REPUBLIC OF KOREA)

2007–2016

"From the beginning, the guiding vision of the United Nations has been as broad as it has been profound: maintaining international peace and security; developing friendly relations among nations; and promoting social progress, better living standards and human rights. ... I called in 2009 for a spirit of renewed multilateralism recognizing the interconnections among the challenges confronting us; privileging the most vulnerable people; establishing multi-stakeholder coalitions; and strengthening the existing global multilateral architecture. These needs remain."

ANTÓNIO GUTERRES (PORTUGAL)

2017–present

"The United Nations remains an indispensable pillar of the international system, working around the world, around the clock, for peace, sustainable development and human rights. At a time when challenges are increasingly global, and our fates are inexorably intertwined, understanding the United Nations itself—its aims, workings and ideals—is more important than ever."

THE SUSTAINABLE DEVELOPMENT GOALS

In 2015, United Nations Member States adopted the 2030 Agenda for Sustainable Development, committing themselves to a strong, universal, ambitious, inclusive and people-centred post-2015 development agenda. By way of its 17 Sustainable Development Goals (SDGs) and 169 associated targets, the Agenda aims, by 2030, to end poverty and hunger everywhere; combat inequalities within and among countries; build peaceful, just and inclusive societies; protect human rights and promote gender equality and the empowerment of women and girls; and ensure the lasting protection of the planet and its natural resources. The Agenda also foresees creating conditions for sustainable, inclusive and sustained economic growth, shared prosperity and decent work for all. The central role in reviewing progress on the Agenda belongs to the High-level Political Forum under the auspices of the General Assembly and the Economic and Social Council, while a Technology Facilitation Mechanism supports the use of technology in implementing the SDGs.

END POVERTY IN ALL ITS FORMS EVERYWHERE

Poverty has many dimensions, but its causes include unemployment, social exclusion, and high vulnerability of certain populations to disasters, diseases and other phenomena which prevent them from being productive. Growing inequality is detrimental to economic growth. Ensuring social protection for all children and other vulnerable groups is critical to reduce poverty.

Efforts to reduce poverty include the creation of enabling environments to generate productive employment for the poor and marginalized. That can be achieved through strategies and fiscal policies that stimulate pro-poor growth, and by focusing the promotion of economic opportunities on segments of the economy where most of the poor are active, namely on micro- and small enterprises and those operating in the informal sector.

END HUNGER, ACHIEVE FOOD SECURITY AND IMPROVED NUTRITION AND PROMOTE SUSTAINABLE AGRICULTURE

Hunger affects people worldwide, but the vast majority are in developing countries. Climate-induced shocks, civil insecurity, economic downturns and declining food production have all contributed to food scarcity and high food prices. A profound change of the global food and agriculture system is needed. It is time to rethink how we grow, share and consume our food.

Agriculture, forestry and fisheries can provide nutritious food for all and generate decent incomes, but small-scale food producers and family farmers require more support, and investment in infrastructure and technology for sustainable agriculture is urgently needed. Greater investment in the agriculture sector is critical for reducing the perils of hunger and poverty, improving food security, creating employment and building resilience to disasters and shocks.

ENSURE HEALTHY LIVES AND PROMOTE WELL-BEING FOR ALL AT ALL AGES

Ensuring healthy lives and promoting well-being at all ages is essential to sustainable development. At least half the world's population is still without access to essential health services. Ensuring healthy lives for all requires a strong commitment, but the benefits outweigh the cost. Healthy people are the foundation for healthy economies. The cost of inaction is greater: millions of children will continue to die from preventable diseases, women will die in pregnancy and childbirth, and health care costs will continue to plunge millions of people into poverty.

More efforts are needed to fully eradicate a wide range of diseases and address many different persistent and emerging health issues. By focusing on providing more efficient funding of health systems, improved sanitation and hygiene, and increased access to physicians, significant progress can be made in helping save the lives of millions.

ENSURE INCLUSIVE AND EQUITABLE QUALITY EDUCATION AND PROMOTE LIFELONG LEARNING OPPORTUNITIES FOR ALL

Obtaining a quality education is the foundation to creating sustainable development. In addition to improving quality of life, access to inclusive education can help equip people with the tools required to develop innovative solutions to the world's greatest problems.

In order to reach children of impoverished families, investment is needed in educational scholarships, teacher training workshops, school-building and better water and electricity access for schools.

ACHIEVE GENDER EQUALITY AND EMPOWER ALL WOMEN AND GIRLS

Gender equality is not only a fundamental human right, but a necessary foundation for a peaceful, prosperous and sustainable world.

Providing women and girls with equal access to education, health care, decent work and representation in political and economic decision-making processes will fuel sustainable economies and benefit societies and humanity at large. Implementing new legal frameworks regarding female equality in the workplace and the eradication of harmful practices targeted at women is crucial to ending the gender-based discrimination still prevalent in many countries around the world.

ENSURE AVAILABILITY AND SUSTAINABLE MANAGEMENT OF WATER AND SANITATION FOR ALL

Clean, accessible water for all is an essential part of the world we want to live in, and there is sufficient fresh water on the planet to achieve this. To improve sanitation and access to drinking water, increased investment in the management of freshwater ecosystems and sanitation facilities on a local level is required, especially in developing countries.

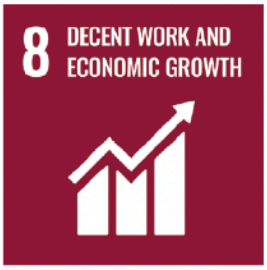

Proper water and sanitation is a key foundation for good health and gender equality. By managing our water sustainably, we are also able to better manage our production of food and energy and contribute to decent work and economic growth. Moreover, we can preserve our water ecosystems and their biodiversity, and take action on climate change.

ENSURE ACCESS TO AFFORDABLE, RELIABLE, SUSTAINABLE AND MODERN ENERGY FOR ALL

Energy is central to nearly every major challenge and opportunity the world faces today. Be it for jobs, security, climate change, food production or increasing incomes, access to energy for all is essential. Focusing on universal access to energy, increased energy efficiency and the increased use of renewable energy through new economic and job opportunities is crucial to creating sustainable and inclusive communities and resilience to environmental issues such as climate change.

Public and private investments in energy need to be increased and focus more on regulatory frameworks and innovative business models to transform the world's energy systems.

PROMOTE SUSTAINED, INCLUSIVE AND SUSTAINABLE ECONOMIC GROWTH, FULL AND PRODUCTIVE EMPLOYMENT AND DECENT WORK FOR ALL

A lack of decent work opportunities, insufficient investments and underconsumption lead to an erosion of the basic social contract underlying democratic societies: that everyone must share in progress.

Sustainable economic growth requires societies to create the conditions allowing people to have quality jobs that stimulate the economy while not harming the environment. Job opportunities and decent working conditions are also required for the whole working-age population. There needs to be increased access to financial services to manage incomes, accumulate assets and make productive investments. Strengthened commitments to trade, banking and agriculture infrastructure will also help increase productivity and reduce unemployment levels in the world's most impoverished regions.

BUILD RESILIENT INFRASTRUCTURE, PROMOTE INCLUSIVE AND SUSTAINABLE INDUSTRIALIZATION AND FOSTER INNOVATION

Investments in infrastructure—transport, irrigation, energy and information and communications technology—are crucial to achieving sustainable development and empowering communities in many countries. It has long been recognized that growth in productivity and incomes and improvements in health and education outcomes require investment in infrastructure.

Technological progress is the foundation of efforts to achieve environmental objectives such as increased resource and energy efficiency. Without technology and innovation, industrialization will not happen, and without industrialization, development will not happen. There is a need for greater investment in high-tech products that increase efficiency and in mobile cellular services that improve connections between people.

REDUCE INEQUALITY WITHIN AND AMONG COUNTRIES

The international community has made significant strides towards lifting people out of poverty. The most vulnerable nations—the least developed countries, the landlocked developing countries and the small island developing states—continue to make inroads in poverty reduction. Inequality persists, however, and large disparities remain regarding access to health and education services and other assets.

To reduce inequality, policies should be universal in principle, paying attention to the needs of disadvantaged and marginalized populations. Actions to that effect would include an increase in duty-free treatment and a continuation of favouring exports from developing countries, in addition to increasing the voting share of developing countries in the International Monetary Fund. Finally, innovations in technology can help reduce the cost of transferring money for migrant workers.

MAKE CITIES AND HUMAN SETTLEMENTS INCLUSIVE, SAFE, RESILIENT AND SUSTAINABLE

Cities are hubs for ideas, commerce, culture, science, productivity, social development and much more. At their best, cities have enabled people to advance socially and economically. With the number of people living in cities projected to rise to 5 billion by 2030, it is important that efficient urban planning and management practices are in place to deal with the challenges brought by urbanization.

Rapid urbanization challenges such as the safe removal and management of solid waste can be overcome in ways that allow cities to continue to thrive and grow, while improving resource use and reducing pollution and poverty. Making cities and communities sustainable means creating a future in which cities and communities provide opportunities for all, with access to basic services, energy, housing, transportation and more.

ENSURE SUSTAINABLE CONSUMPTION AND PRODUCTION PATTERNS

Sustainable consumption and production is about promoting resource and energy efficiency and sustainable infrastructure; and providing access to basic services, green and decent jobs and a better quality of life for all. Its implementation helps achieve overall development plans; reduce future economic, environmental and social costs; strengthen economic competitiveness; and reduce poverty.

Since sustainable consumption and production aims at doing more and better with less, net welfare gains from economic activities can increase by reducing resource use, degradation and pollution along the whole life cycle, while increasing quality of life. There also needs to be significant focus on supply chain operations involving everyone from producer to final consumer. That includes educating consumers on sustainable consumption and lifestyles, providing them with adequate information through standards and labels, and engaging in sustainable public procurement.

TAKE URGENT ACTION TO COMBAT CLIMATE CHANGE AND ITS IMPACTS

Climate change affects every country and every continent. It is disrupting national economies and affecting lives, costing people, communities and countries dearly today and even more tomorrow. Weather patterns are changing, sea levels are rising, weather events are becoming more extreme and greenhouse gas emissions are at their highest levels in history. Without action, the world's average surface temperature is likely to rise by more than 3°C this century. The poorest and most vulnerable people are being affected the most.

Affordable, scalable solutions are now available to enable countries to leapfrog to cleaner, more resilient economies. The pace of change is quickening as more people are turning to renewable energy and a range of other measures that will reduce emissions and increase adaptation efforts. Climate change, however, is a global challenge that does not respect national borders. It is an issue that requires solutions that need to be coordinated at the international level to help developing countries move towards a low-carbon economy.

CONSERVE AND SUSTAINABLY USE THE OCEANS, SEAS AND MARINE RESOURCES FOR SUSTAINABLE DEVELOPMENT

The world's oceans—their temperature, chemistry, currents and life—drive global systems that make the Earth habitable for humankind. Our rainwater, drinking water, weather, climate, coastlines, much of our food and even the oxygen in the air we breathe are all ultimately provided and regulated by the sea. Throughout history, oceans and seas have been vital conduits for trade and transportation.

Careful management of this essential global resource is a key feature of a sustainable future. Deterioration of coastal waters owing to pollution and ocean acidification is having an adverse effect on the functioning of ecosystems and biodiversity. This is also negatively impacting small scale fisheries. Marine protected areas need to be effectively managed and well-resourced. Regulations need to be put in place to reduce overfishing, marine pollution and ocean acidification.

PROTECT, RESTORE AND PROMOTE SUSTAINABLE USE OF TERRESTRIAL ECOSYSTEMS, SUSTAINABLY MANAGE FORESTS, COMBAT DESERTIFICATION, AND HALT AND REVERSE LAND DEGRADATION AND HALT BIODIVERSITY LOSS

Forests cover almost one third of the Earth's surface. In addition to providing food security and shelter, they are key to combating climate change and protecting biodiversity and the homes of indigenous populations. By protecting forests, we will also be able to strengthen natural resource management and increase land productivity.

Deforestation and desertification—caused by human activities and climate change—pose major challenges to sustainable development and have affected the lives and livelihoods of millions of people in the fight against poverty. International agreements promoting the equitable use of resources and financial investments in support of biodiversity are important for managing forests and combating desertification.

PROMOTE PEACEFUL AND INCLUSIVE SOCIETIES FOR SUSTAINABLE DEVELOPMENT, PROVIDE ACCESS TO JUSTICE FOR ALL AND BUILD EFFECTIVE, ACCOUNTABLE AND INCLUSIVE INSTITUTIONS AT ALL LEVELS

Crimes that threaten the foundation of peaceful societies, including homicides, trafficking and other organized crimes, as well as discriminatory laws or practices, affect all countries. Violence, in all its forms, has a pervasive impact on societies. Violence affects children's health, development and well-being, and their ability to thrive. It causes trauma and weakens social inclusion. Lack of access to justice means that conflicts remain unresolved and people cannot obtain protection and redress. Institutions that do not function according to legitimate laws are prone to arbitrariness and abuse of power, and less capable of delivering public services to everyone.

To achieve peace, justice and inclusion, it is important that governments, civil society and communities work together to implement lasting solutions to reduce violence, deliver justice, combat corruption and ensure inclusive participation at all times. Freedom to express views, in private and in public, must be guaranteed. People must be able to contribute to decisions that affect their lives. Laws and policies must be applied without any form of discrimination.

STRENGTHEN THE MEANS OF IMPLEMENTATION AND REVITALIZE THE GLOBAL PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT

A successful sustainable development agenda requires partnerships between governments, the private sector and civil society. Inclusive partnerships that are built upon common principles and values, a shared vision and shared goals that place people and the planet at the centre are needed at the global, regional, national and local levels.

Urgent action is needed to mobilize, redirect and unlock the transformative power of trillions of dollars of private resources to deliver on sustainable development objectives. Long-term investments, including foreign direct investment, are needed in critical sectors, especially in developing countries. These include sustainable energy, infrastructure and transport, as well as information and communications technology. Frameworks, regulations and incentive structures that enable such investments must be retooled to attract investments and reinforce sustainable development. National oversight mechanisms such as supreme audit institutions and oversight functions by legislatures should be strengthened.

President of the General Assembly Calls for Bold Action to Build a Fairer, More Inclusive World

30 OCTOBER 2025

In the lead-up to the Second World Summit for Social Development in Doha, H.E. Annalena Baerbock, President of the 80th session of the United Nations General Assembly, called on Member States and all partners to “prove through action, not words, that a fairer, more inclusive world is within our reach.”
Recalling the spirit of the 1995 Copenhagen World Summit for Social Development, she reminded the international community of its founding conviction: that “humanity is about living a life in dignity, not survival.” While progress has been achieved over the past three decades, she underscored that the gaps remain profound — with over 800 million people still living in extreme poverty and millions lacking basic social protections, healthcare, and education.
“With only five years left to achieve the Sustainable Development Goals, we must reignite global ambition and deliver inclusive, resilient and just societies,” she said. “Societies where every child goes to school, where hunger is ended once and for all, and where none are left behind.”
H.E. Baerbock stressed that social development remains the “bedrock of peace, security and justice,” urging all governments and stakeholders to arrive in Doha with “concrete and innovative solutions that accelerate social progress for all.”
The Second World Summit for Social Development, taking place from 4 to 6 November 2025 in Doha, Qatar, will bring together Heads of State and Government to renew the global commitment to eradicate poverty, promote decent work and social inclusion, and adopt the Doha Political Declaration.

Improving lives around the world

By promoting peace, human rights and social progress, including access to healthcare and education, the United Nations has improved the lives of people around the world, creating better living standards for all.

The UN is indispensable to world peace, justice and equality

The UN currently deploys tens of thousands of peacekeepers across 11 operations to help countries navigate the difficult path from conflict to peace.

It has facilitated the adoption of nearly 30 disarmament treaties and ensured the destruction of over 55 million landmines.

> **Eight decades later, one can draw a direct line between the creation of the United Nations and the prevention of a third world war."**
>
> *ANTÓNIO GUTERRES, United Nations Secretary-General*

Summit for Social Development: A Global Call to Action

30 OCTOBER 2025

In a world grappling with growing inequalities, demographic shifts, and the fast pace of technological and environmental change, the Second World Summit for Social Development is bringing leaders together in Doha to talk and take action.
Thirty years after the landmark Copenhagen Summit, the mission remains the same: to build a world where progress is measured not just in Wealth, but in well-being, equality and the human dignity.

The Second World Summit for Social Development: It's Time to Deliver Solutions

31 OCTOBER 2025

This November, the international community will gather in Doha, Qatar, for the Second World Summit for Social Development. The occasion marks 30 years since the first World Summit for Social Development and the adoption of the Copenhagen Declaration and Programme of Action—a bold and ambitious promise to place people at the centre of development. Through 10 foundational commitments, world leaders pledged to eradicate poverty, promote full employment, and build inclusive, just and resilient societies. It was a vision for the twenty-first century, grounded in dignity, equity and shared prosperity.
With the expected adoption of the Doha Political Declaration, the Second World Summit for Social Development offers a chance not only to recommit to the promise of Copenhagen, but also to accelerate implementation of the 2030 Agenda and ensure that we identify and address today's social challenges. It is a moment to advance innovative policy solutions that accelerate social progress and leave no one behind. It is also an opportunity to reaffirm that multilateralism is very much alive and that meaningful progress is possible through inclusive cooperation.
Much has been achieved since Copenhagen. Extreme poverty has been halved. More children, especially girls, are attending school. Digital transformation has expanded access to services, and global health advancements have extended life expectancy and helped tackle diseases.

Climate change requires urgent, coordinated and consistent action. ActNow is the United Nations global call to individual action on climate change. By changing our habits and routines and making choices that have less harmful effects on the environment, we have the power to confront the climate challenge. Small changes can make a big difference if we all work together. Be a part of the movement!

ActNow harnesses advances in Artificial Intelligence to spur behaviour change. The ActNow bot recommends daily actions to reduce our carbon footprints such as travelling more sustainably, saving energy or eating less meat. ActNow highlights the impact that collective action can have at this critical moment in our planet's history. The more people act, the bigger the impact.

Expanding forests is an effective way to create 'negative emissions' and remove large amounts of CO_2 from the atmosphere. 10 APRIL 2010/ UN PHOTO/EKA FENDIASPARA

MESSAGE FROM THE CHAIRMAN OF THE ORGANIZATION

On the occasion of the 80th United Nations General Assembly and the 10th anniversary of the World Organization of Governance and Competitiveness (WOGC), I, on behalf of the WOGC Council and all its members, extend our sincere gratitude and profound respect to the governments, international institutions, partners, and member organizations that have supported and contributed to our development.

Ten years ago, WOGC was established under the framework of the United Nations Sustainable Development Goals (SDGs) at the initiative of the President of the 68th UN General Assembly. It represents not only a new milestone in international multilateral cooperation but also a vision for a shared future for humanity. Since its inception, WOGC has adhered to the principles of peace, development, justice, and cooperation, actively participating in global governance reform and collaborating with nations worldwide to explore sustainable development pathways for society.

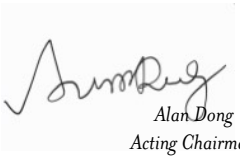

The past decade has been one of turning ideals into practice and vision into action. During this period, we have witnessed profound changes in the global landscape, alongside the rapid rise of the digital economy, artificial intelligence, biotechnology, and green finance. WOGC has partnered with governments, international organizations, and civil society to implement landmark projects in international investment, digital finance, sustainable development, marine ecology, and human health, contributing to a more just, inclusive, and balanced global order.

Today, we present this commemorative pictorial brochure—Building Our Future Together: The United Nations 80th Anniversary · WOGC 10th Anniversary Commemorative Edition. This publication not only celebrates WOGC's journey but also marks a new beginning, documenting our progress from inception to regional cooperation and, ultimately, to global governance.

As we face the challenges of a new century, we are more convinced than ever that peace is humanity's eternal pursuit, cooperation is the path to development, and building a community with a shared future is the ultimate goal for mankind.

WOGC will continue to uphold openness, inclusiveness, and win-win cooperation, deepen collaboration with countries, regional organizations, and civil institutions, and strive toward the grand vision of modernizing global governance, sharing digital civilization, and promoting inclusive sustainable development.

I firmly believe the next decade will be even brighter for WOGC. Together with countries around the world, under the United Nations framework, we will forge consensus through responsibility, inspire action through conviction, and shape the future through cooperation. Let us join hands to build a community with a shared future and usher in a new era of human civilization.

Alan Dong
Acting Chairman
World Organization of Governance and Competitiveness (WOGC)
October 2025

MESSAGE FROM THE SECRETARY GENERAL OF THE ORGANIZATION

Building Our Future Together — The 10th Anniversary of WOGC: Celebrating Global Cooperation through the United Nations commemorates a decade of WOGC's landmark contributions to promoting peace and security, protecting human rights, and advancing economic and social development worldwide.

Richly illustrated with photographs, this booklet offers an in-depth look at how WOGC has served the peoples of the world. It highlights the wide range of global challenges WOGC has addressed, as well as the transformative initiatives it has launched in alignment with the United Nations' mission to foster collective human progress.

Through compelling stories and visuals, the publication showcases WOGC's efforts across diverse fields — from eradicating poverty, addressing climate change, and protecting the environment, to helping nations rebuild livelihoods, sharing technological innovation, and advancing new frontiers in the global digital economy.

While reflecting on significant innovations in global policy and international cooperation, Building Our Future Together also presents tangible achievements in improving the economies of less-developed regions through practical collaboration. These remarkable partnerships illustrate how WOGC, guided by its ambitious and forward-looking vision, remains dedicated to achieving shared prosperity for humanity and the planet — helping to build a more inclusive, sustainable, and better world for all.

Peter Yao

Peter Yao
Acting Secretary-General
World Organization of Governance and Competitiveness (WOGC)
October 2025

ORGANIZATION OVERVIEW

Organization Establishment

On July 20, 2016, The World Organization of Governance and Competitiveness for the UNSDGs (WOGC-UNSDSs) was officially established in New York, United States as a "mixed intergovernmental organization under the framework of the United Nations".

On September 19,2016, the first day of the 2016 United Nations General Assembly Summit, WOGC held its founding conference at the United Nations headquarters.

Organizational Structure

WOGC belongs to the "United Nations framework, intergovernmental mixed system, international organization".

(1)The meaning of "under the framework of the United Nations" in WOGC refers to the authoritative qualifications of the United Nations, namely the United Nations Treaty Number, which were obtained at the beginning of its establishment. At the same time, WOGC has also obtained the qualification to conduct in-depth cooperation with SICA and jointly dispatch a permanent mission to the United Nations.

The United Nations Treaty Number is a sovereign status qualification granted by the United Nations to intergovernmental organizations. Only with the unanimous vote of a majority of all United Nations member states can a government or intergovernmental organization be granted a Treaty number, which is kept by the Secretary General of the United Nations. Having a United Nations Treaty number can facilitate the signing of contracts with governments of various countries, while also being protected by international law. Especially in the process of communication and legal cooperation with the 193 member states of the United Nations, with the endorsement of the United Nations, there is no need for difficult repeated communication from country to country.

SICA (Central American Integration System) is a highly influential intergovernmental organization in Central America, with eight Central American countries as members. It holds the United Nations Treaty number. Many developed countries, including South Korea, directly negotiate with SICA when conducting FTA negotiations with Central American countries. SICA has a mission to the United Nations. According to the negotiation results between SICA Secretariat and WOGC, SICA has decided to jointly establish a UN mission with WOGC and share the New York office. SICA will also establish offices and send ambassadors to both headquarters of WOGC for in-depth cooperation.

(2) The meaning of "intergovernmental hybrid system" in WOGC refers to the unique organizational structure of WOGC, which is jointly initiated by the state, intergovernmental organizations, and non-governmental organizations. WOGC has been a mixed international organization since its inception.

Mixed government organizations are different from intergovernmental organizations (IGOs) and also different from non-governmental organizations (NGOs). Members of intergovernmental organizations can only be national government agencies. The members of non-governmental organizations can only be various types of non-governmental organizations, and their members cannot have a country, because the status of the government and non-governmental organizations cannot match. An international organization that can mix two different forms of organization together is called a mixed international organization. The International Red Cross is a typical mixed international organization. This organizational form has great flexibility. However, the disadvantage is that without the authorization of the United Nations, it is difficult to develop global governments as members. With the authorization of the United Nations, the legal and international customary barriers for the 193 member governments of the United Nations to join the organization and become members will be eliminated, with great development space and growth potential.

The initial initiators of WOGC were "three countries, one intergovernmental organization (IGO), and multiple non-governmental organizations (NGO)".

The three countries are El Salvador, Guatemala, and Honduras.

The intergovernmental organization is the "PT (Trifinio Plan Organization, with its own jurisdiction and independent operational mechanism)".

Multiple non-governmental organizations include GNCCOUN, GGUNSDG, WOHI, MMUN, University of New Haven, etc. GGUNSDG was established in September 2015 as a non-governmental organization initiated by GNCCOUN. GNCCOUN was founded in April 2015 as a non-governmental organization jointly initiated by the National Institute of Competitiveness at Peking University and the Korea Industrial Policy Research Institute. The World of Hope International (WOHI) obtained special consultative status with the United Nations in 2008, and the Montessori Model United Nations (MMUN) is the most successful international NGO for Model United Nations and Montessori education. The University of New Haven is an academic institution that has been heavily involved in drafting the 17 Sustainable Development Goals of the United Nations.

(3) Since its establishment, WOGC has been a super sovereign international organization, committed to implementing the United Nations Sustainable Development Goals and promoting global peace and development, economic growth, and the well-being of people worldwide.

Organizational Mission

WOGC's mission is to promote the achievement of the 17 Sustainable Development Goals of the United Nations, promote sustainable development of the global economy, culture, and society, assist various members in carrying out governance activities, and comprehensively enhance the core capabilities of all members, including countries.

WOGC will comprehensively promote sustainable development in developing countries, enhance global governance capabilities, and strengthen the competitiveness of both public and private sectors through various means such as building an alliance system, assisting in enhancing national core competitiveness, sharing best governance and competitive practices, and promoting cooperation between the public and private sectors.

Meaning of LOGO

The logo of WOGC contains deep meanings.

The outer side of the logo is surrounded by the English name of WOGC. Especially WOGC UNSDGs demonstrate the original intention and purpose of WOGC's establishment to practice the United Nations Sustainable Development Goals.

The central part of the logo has a pattern resembling a bird at the bottom, representing not only the ocean but also the water resources that nurture life. The shape of the peace dove also symbolizes peace. This means that the most fundamental part of WOGC is to actively contribute to the peace of human society and the development of all things.

The pattern in the center of the logo, followed by the shape of a bird, represents the earth that carries all things, indicating a solid foundation for sustainable development. It also nurtures a foundation that can carry various contents.

The pattern in the central part of the logo, followed by the tree trunk composed of two streams of energy. It can refer to "competitiveness and governance", "East and West", "innovation and improvement", as well as "old forces and new forces" and many other meanings.

Two forces crossed and rose, forming a dense top in the shape of four people. Four people can represent "four human species", "human beings from four continents", "youth, middle-aged, and elderly", as well as "men and women from the East and West" or "men and women from the North and South", symbolizing unity, peace, and common development as a whole.

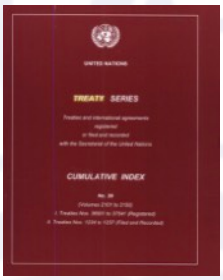

The pattern in the central part of the logo contains three layers of meaning in its overall shape. They are respectively "dense trees", "lampstands illuminating the darkness", and "rising sunlight", all of which revolve around sustainable development, for the development of human economy, cultural integration, and the development of humanitarian causes.

The central part of the logo is wrapped with wheat ears symbolizing prosperity and development on both sides, which also indicates that WOGC is committed to promoting world economic development, implementing the United Nations Sustainable Development Goals, and helping underdeveloped and developing countries achieve economic development.

Team Introduction

Chairman:	Alan Dong (Vanuatu)

ACTIVITIES OF THE NEW YORK HEADQUARTERS AND INTERNATIONAL COOPERATION

WOGC Participates in the Prayer Ceremony of the 71st United Nations General Assembly

September 13, 2016 — On the eve of the 71st United Nations General Assembly, the World Organization of Governance and Competitiveness (WOGC) was invited to attend a prayer conference organized by the United Nations Church, together with numerous UN leaders.
During the high-level dinner held that evening, the WOGC representative personally presented the organization's mission, upcoming initiatives, and preparations for its official founding to UN Secretary-General H.E. Ban Ki-moon, 70th UN General Assembly President H.E. Mogens Lykketoft, 71st UN General Assembly President H.E. Peter Thomson, and other senior UN officials. The organization's vision and efforts received high recognition and encouragement from UN leadership.

WOGC Held its First Council Meeting

September 18, 2016 — On the day before the founding conference, the World Organization of Governance and Competitiveness (WOGC) convened its first council meeting. During the session, members elected the Chairman, Vice Chairmen, Secretary-General, and Directors, and formally approved key organizational appointments.
The meeting also reviewed the organization's charter, governance framework, and strategic development plan, laying a solid foundation for its official establishment. It marked an important milestone in defining WOGC's mission, structure, and long-term direction for global cooperation and governance.

WOGC Participates in the United Nations Special Session on Climate Change

June 29, 2015 — The Chairman represented the World Organization of Governance and Competitiveness (WOGC) at the United Nations Special Session on Climate Change held at UN Headquarters in New York. More than 190 Member States attended the meeting to discuss global climate challenges and sustainable development strategies. During the session, the WOGC delegation emphasized the importance of strengthening international cooperation and green innovation to combat climate change. The participation of WOGC marked an important step in promoting the organization's commitment to environmental protection and sustainable global growth.

Chairman with United Nations Secretary-General H.E. Ban Ki-moon

Chairman with Ghanaian Catholic prelate Mr. Peter Turkson

Chairman with the leader from European Union

Chairman with President of the 70th Session of the United Nations General Assembly H.E. Mogens Lykketoft

Chairman with United Nations Deputy Secretary-General H.E. Jan Eliasson

Chairman with President of the 69th Session of the United Nations General Assembly H.E. Sam Kahamba Kutesa

Chairman with President of the 71th Session of the United Nations General Assembly H.E. Peter Thomson

WOGC Holds High-Level Summit at the United Nations Headquarters on Implementing the United Nations 17 Sustainable Development Goals

October 13, 2016 — The World Organization of Governance and Competitiveness (WOGC), together with UNFPA and the Governments of Bangladesh and El Salvador, hosted the summit *"Building National Core Competitiveness through Blockchain and PPP to Achieve the UN SDGs"* at the UN Headquarters. The event, listed in the UN conference directory, was widely covered by UN Television and UN News.

The summit explored leveraging technology and PPP for sustainable development. Developing countries, including Bangladesh and El Salvador, expressed interest in collaborating with WOGC to strengthen national competitiveness.

Mr. Carlos Garcia, WOGC Vice President, chaired the summit, highlighting the need for innovative development models. H.E. Masud Bin Momen and H.E. Rubén Zamora affirmed their countries' readiness to engage in PPP projects. Ms. Marcela Suazo, UNFPA Global Director, called for global cooperation to reduce poverty and enhance well-being. Over 100 diplomats, officials, and experts attended, demonstrating broad support for the UN 2030 Agenda.

Sierra Leone Minister and Presidential Envoy Visits WOGC New York Headquarters

H.E. Samura Kamara, Presidential Envoy and Minister of Foreign Affairs and International Cooperation of the Republic of Sierra Leone, visited the World Organization of Governance and Competitiveness (WOGC) Headquarters in New York. On behalf of the President, H.E. Kamara conveyed the Head of State's sincere appreciation and apologies to WOGC, expressing the government's strong commitment to further deepening bilateral cooperation.

He extended heartfelt gratitude for WOGC's continued support and contributions to Sierra Leone's development and explained that, due to pressing national engagements, the President was unable to attend the United Nations General Assembly. Representing the nation as Presidential Envoy, H.E. Kamara reaffirmed Sierra Leone's readiness to conclude a *Comprehensive Strategic Partnership Agreement* with WOGC—signifying the beginning of a new chapter in collaborative relations.

Following the meeting, both parties shared a working luncheon, during which the WOGC Chairman and Minister Kamara discussed and confirmed the details of the upcoming official visit to Sierra Leone, aimed at further advancing the partnership framework and implementation agenda.

Secretary General of the Sri Lankan Presidential Office and Presidential Envoy Visits WOGC New York Headquarters

The visit of H.E. Shiral Lakthilaka, Secretary-General of the Presidential Office and Special Envoy of the President of Sri Lanka, to the World Organization of Governance and Competitiveness (WOGC) brought a series of positive developments for bilateral cooperation. During the meeting, H.E. Lakthilaka announced that the status of WOGC in Sri Lanka would be elevated to that of an International Non-Governmental Organization (INGO) and extended an invitation for WOGC to participate in national livelihood and development projects. He also proposed the establishment of a strategic partnership with the Sri Lanka National Lottery Company and sought WOGC's technical support in the issuance of digital assets to promote financial innovation in the country.

On behalf of the President, H.E. Lakthilaka conveyed a formal invitation to the WOGC Chairman to undertake an official state visit to Sri Lanka, marking a new stage of cooperation and mutual engagement between the two parties.

Deputy Secretary General of the United Nations Visits WOGC New York Headquarters

H.E. Michel Sidibé, Deputy Secretary-General of the United Nations and Executive Director of the Joint United Nations Programme on HIV/AIDS (UNAIDS), paid a special visit to the World Organization of Governance and Competitiveness (WOGC) Headquarters in New York following a dinner meeting with WOGC representatives.

During the visit, the WOGC Chairman extended an invitation for H.E. Sidibé to serve as an Advisor to WOGC, further strengthening the organization's ties with the United Nations system. The Secretary-General of WOGC presented a detailed report on the organization's achievements over the past six months, which received high praise and recognition from H.E. Sidibé. Both parties affirmed their mutual intention to establish a comprehensive strategic partnership, marking an important step toward deepening cooperation in areas of sustainable development, public health, and global governance.

President of Kiribati Visits WOGC New York Office

H.E. Taneti Maamau, President of the Republic of Kiribati, visited the WOGC New York Office following his participation in the United Nations General Assembly and meeting with the UN Secretary-General. During the visit, the Chairman presented organizational badges to the President and First Lady and formally invited the President to serve as a WOGC Advisor. Both sides reached a preliminary agreement on establishing an Investment Digital Bank in Kiribati. The President expressed his full support, stating that he would instruct Parliament and relevant ministries to expedite the necessary resolutions. WOGC and the Government of Kiribati plan to officially sign the agreement during WOGC's visit in October.

Prime Minister of Vanuatu Visits WOGC New York Headquarters

H.E. Charlot Salwai, Prime Minister of the Republic of Vanuatu, visited the WOGC New York Headquarters following the conclusion of the United Nations General Assembly. During the meeting, both sides confirmed the direction of cooperation on global livelihood and housing projects and agreed to formally sign a partnership agreement during the Prime Minister's visit in October.

The Chairman presented the organization's emblem to Prime Minister Salwai and formally invited him to serve as a WOGC Advisor. The Xinhua News Agency's United Nations Bureau conducted a comprehensive interview and reported on the meeting. The discussions and subsequent dinner yielded fruitful results, further strengthening the foundation for future collaboration between WOGC and the Government of Vanuatu.

The Founding Conference of WOGC

September 19, 2016, — During the 71st Session of the United Nations General Assembly, the founding conference of the *World Organization of Governance and Competitiveness (WOGC)* was grandly held at the United Nations Plaza in New York. The event was attended by H.E. Sheikh Hasina, Prime Minister of Bangladesh, along with heads of government, senior United Nations officials, ambassadors, distinguished guests from various sectors, and representatives from the private sector.

This high-level reception also marked the first anniversary of the United Nations Sustainable Development Goals (SDGs), symbolizing WOGC's commitment to advancing global governance, inclusive development, and sustainable prosperity.

John William Ashe, one of the main initiators of WOGC, the President of the 68th United Nations General Assembly

John William Ashe, born in a small island nation in Central and South America—Antigua and Barbuda—was a distinguished politician and diplomat. He was elected President of the 68th United Nations General Assembly on June 14, 2013. Since 2004, he also held dual positions as Antigua and Barbuda's Permanent Representative to the United Nations and to the World Trade Organization.

Mr. Ashe was passionate about sustainable development issues and was at the forefront of international efforts to address the adverse effects of climate change and eradicate poverty. He held leadership roles on many major UN environmental agreements, including serving as the first Chair of the Executive Board of the Kyoto Protocol's Clean Development Mechanism under the United Nations Framework Convention on Climate Change (UNFCCC). He also served as Chair of the Convention's compliance body and recently presided over a special working group on further commitments under the Kyoto Protocol Annex I Parties. He summarized his philosophy by saying, "What we have is only the Earth we live on, and if we are to leave a decent planet for future generations, we must wholeheartedly create a better, safer, and cleaner world."

Mr. Ashe was also known for his excellent coordination skills. He successfully led negotiations at the World Summit on Sustainable Development (Johannesburg +10) in 2002, which resulted in the Johannesburg Implementation Plan's Chapter 10, and served as Co-Chair of the 2012 UN Conference on Sustainable Development (Rio +20). In 2004, he chaired the 13th session of the UN Commission on Sustainable Development, responsible for reviewing the implementation of the "Plan of Implementation," a blueprint to rethink economic growth, promote social equity, and ensure environmental protection.

As a seasoned diplomat involved in multilateral work, Ashe was elected Chair of the 77 Group of Countries and the China (New York Chapter) in 2008, which is the largest alliance of developing countries within the UN system. He also served as Chair of the High-level Committee on South-South Cooperation, a key decision-making body committed to promoting development cooperation among Southern countries.

Mr. Ashe was very familiar with UN administration and budget affairs. As Chair of the Fifth Committee of the General Assembly in 2004, he successfully guided negotiations on the Organization's budget for 2006-2007. He also served on the governing bodies of major UN funds and programs, including as Chair of the Executive Board of the United Nations Development Programme (UNDP) in 2010, and as a member of the Executive Boards of the United Nations Population Fund and the United Nations Office for Project Services. In 2012, he served as Chair of the Executive Board of UNICEF. During the United Nations Climate Summit 2014, John Ashe initiated the creation of the "United Nations Global National Competitiveness Cooperation Organization" (GNCCOUN), established a Research Institute (UNGNCRI) and a Foundation (UNGNCF), with Ashe himself as the Founding Chairman of the Steering Committee. Under his proposal, Guo YunTao was appointed as the first Executive Committee Chair, and Cary Yan as Secretary General. His efforts received strong support from then General Assembly President Sam Kutesa and UN Secretary-General Ban Ki-moon.

On June 22, 2016, Mr. Ashe tragically passed away unexpectedly at his home in Dobbs Ferry, New York. His death was a significant loss for WOGC. In memory of his great contributions, the Governing Council awarded Ashe as the Permanent Honorary Chairman of WOGC in September 2016. Throughout his lifetime, he was Antigua and Barbuda's Permanent Representative to the UN and served as President of the 68th United Nations General Assembly from 2013 to 2014. During his tenure, he actively promoted the formation and adoption of the Sustainable Development Goals (SDGs), laying the groundwork for the subsequent 2030 Agenda, and is hailed as "one of the founders of the Sustainable Development Goals."

The Predecessor of WOGC, IGO-GGUNSDG

September 22, 2015 — With the joint support of the United Nations General Assembly and the UN Secretariat, the predecessor of WOGC — *Intergovernmental Organization for Global Governance and the United Nations Sustainable Development Goals (IGO–GGUNSDG)* — held its founding conference at the United Nations Headquarters in New York. The meeting took place in the 4th-floor conference hall and marked an important milestone in advancing the implementation of the United Nations Millennium Development Goals.

United Nations Secretary-General H.E. Ban Ki-moon delivered a speech at the inaugural meeting

President of the 68th Session of the United Nations General Assembly H.E. Mr. John W. Ashe, delivered a speech at the inaugural meeting

Founding Steering Committee of World Organization of Governance and Competitiveness (WOGC)

The founding steering committee of WOGC is composed of distinguished international leaders and diplomats who played a pivotal role in the organization's establishment and early development.

Members:

John William Ashe, Sam Kutesa, Peter Thomson, Jan Eliasson, Mario Vinicio Cerezo Arevalo, Freidili Torres, Felipe Calderón, Kessai Note, Francis Lorenzo, Cary Yan, Sergio Bran, Guo Yuntao, Michel Sidibe, Alvaro Colom Caballeros, Mike Kabua, , Palitha Kohona, Tebuai Uaai, Carlos García, Ni Jianmin, Cui Waichu

WOGC Hosts the United Nations Global Youth Leaders Conference

March 9–12, 2016 — The United Nations Global Youth Leaders Conference, hosted by the World Organization of Governance and Competitiveness (WOGC) in partnership with the Montessori Model United Nations (MMUN), was successfully held in New York with the support of the United Nations Department of Global Communications and other relevant organizations. Chairman led a WOGC delegation to New York to preside over the conference.

High level Meeting on United Nations Public Private Partnership and Sustainable Development Goals (SDG 16)

On the afternoon of October 13, 2016, a high-level meeting was held in the E conference hall at the United Nations headquarters, focusing on the role of public-private partnerships and culture as tools for implementing the Sustainable Development Goals (SDG 16). This conference is co hosted by the Permanent Mission of El Salvador to the United Nations, the Permanent Mission of Bangladesh to the United Nations, and WOGC.

WOGC Signs Comprehensive Strategic Cooperation Agreement with Zambia

August 4, 2017 — His Excellency Lazarous Kapambwe, Permanent Representative of the Republic of Zambia to the United Nations and former President of the UN Economic and Social Council, signed a Comprehensive Strategic Cooperation Agreement with the Chairman of the World Organization of Governance and Competitiveness (WOGC) on behalf of the Government of Zambia. This agreement marked the beginning of a new phase of collaboration in promoting sustainable development, economic growth, and global partnership initiatives.

WOGC Donates Supplies to Sierra Leone

August 31, 2017 — In response to the devastating floods and mudslides in Sierra Leone, the World Organization of Governance and Competitiveness (WOGC) extended humanitarian support to the affected communities. The Chairman presented a donation check of US$50,000 to H.E. Abdul Clommar, Ambassador of Sierra Leone to the United Nations, during a handover ceremony at the Ambassador's office in Manhattan, New York.

WOGC Successfully Holds the "UNSDG" New Paradigm Global Summit at the United Nations Headquarters

August 28, 2017 — The First UNSDG Global Summit on New Practice Paradigms, co-hosted by the World Organization of Governance and Competitiveness (WOGC) and the Permanent Mission of Zambia to the United Nations, was successfully held in the Economic and Social Council Chamber at the United Nations Headquarters. The event brought together eight heads of state and received strong support from 27 Permanent Missions to the United Nations. Despite their demanding schedules, numerous ambassadors personally attended the summit, reflecting broad international recognition and commitment to advancing the United Nations Sustainable Development Goals (UNSDGs).

WOGC Signs Comprehensive Strategic Partnership Agreement with the Central American Integration System (SICA)

September 19, 2017 — The World Organization of Governance and Competitiveness (WOGC) and the Central American Integration System (SICA) formally signed a Comprehensive Strategic Partnership Agreement at the United Nations Headquarters in New York.

H.E. Vinicio Cerezo, Secretary-General of SICA and former President of Guatemala, personally led a high-level delegation from the SICA Secretariat to attend and witness the signing ceremony together with the Chairman of WOGC. The event was also attended by Ms. Olinda Salguero, Chief of Cabinet of SICA; Mr. Carlos Chavarría, Director of SICA's Public Relations and Contracts Bureau; and Mr. Ernesto Monge, Minister of International Cooperation of SICA.

The signing of this agreement represents a landmark step toward strengthening regional cooperation between Central America and the international community. It underscores the shared commitment of both organizations to advance sustainable economic development, improve governance capacity, and foster innovation-driven growth through strategic collaboration.

Under the framework of this partnership, WOGC and SICA will jointly promote initiatives in digital transformation, financial inclusion, and trade facilitation, as well as the development of smart infrastructure projects aimed at enhancing social welfare and economic resilience in the region.

Both parties also emphasized the importance of aligning their efforts with the United Nations 2030 Agenda for Sustainable Development, pledging to work together in implementing projects that contribute directly to the achievement of the Sustainable Development Goals (SDGs).

This collaboration not only marks a new chapter in the relationship between WOGC and SICA but also demonstrates how regional integration and global governance can come together to build a more inclusive, prosperous, and interconnected future for the peoples of Central America.

WOGC Hosts Global Women Entrepreneurs Summit and Launches Global Women Entrepreneurs Mentorship Network Initiative

March 16, 2018 — During the United Nations Commission on the Status of Women (CSW), the World Organization of Governance and Competitiveness (WOGC) successfully hosted the Global Women Entrepreneurs Summit at the United Nations Headquarters in New York and officially launched the Global Women Entrepreneurs Mentorship Network Initiative.

This landmark initiative brings together representatives from more than 40 countries, including Vanuatu, Zambia, Ghana, Sri Lanka, South Africa, Panama, and Puerto Rico, to establish a mentorship network that connects accomplished women entrepreneurs from emerging economies with rural women entrepreneurs in developing nations.

The program is designed to inspire, guide, and empower women worldwide, helping them achieve professional success, strengthen community development, and realize their full potential in the global economy.

WOGC New York Conference

During the United Nations conference, the Chairman of WOGC presided over several major international meetings. As an active participant in global development initiatives, WOGC continues to play an important role in fostering international cooperation and advancing sustainable progress.

At a special United Nations side event, Chairman delivered a keynote address introducing the Global Innovation Cooperation Initiative – “Digital Economy Tech+”, which seeks to promote the achievement of the United Nations Sustainable Development Goals (SDGs) through cross-border technology transfer, digital innovation, and collaborative research.The initiative underscores WOGC’s commitment to bridging technological gaps, empowering developing economies, and creating a more inclusive and interconnected global digital ecosystem.

UN Special Envoy for Climate Change, Xie Zhenhua

During the United Nations Climate Conference, WOGC Chairman met with China’s Special Envoy for Climate Change, Mr. Xie Zhenhua. The two sides discussed the progress of the Paris Climate Agreement implementation, focusing on enhancing the capacity of developing countries to address climate change.WOGC pledged to launch the Carbon Neutral Technology Transfer Alliance, aimed at supporting the clean energy transition in African and Southeast Asian countries through financial assistance and technological cooperation.Mr. Xie Zhenhua highly commended WOGC’s active role in global climate action and expressed China’s willingness to work closely with WOGC to advance international climate governance and sustainable development.

WOGC Chairman Visits to Various Permanent Missions to the United Nations

July 11, 2017 — Meeting with Mr. Sergio Bran, President of Plan Trifinio El Salvador discussing about implementing Immortal ecosystem in Latin America.

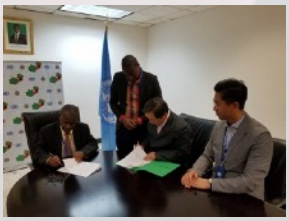

August 17, 2017 — Meeting with Ambassador H.E.Amadu Koroma,the permanent mission of Sierra Leon

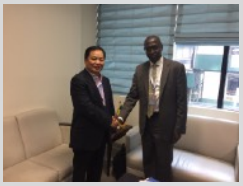

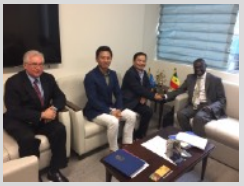

July 12, 2017 — Meeting with Zambia Ambassador to the UN H.E. Lazarous Kapembwa

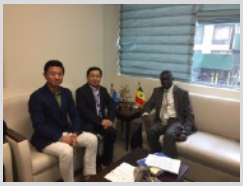

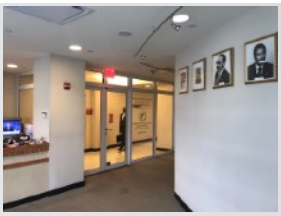

July 15, 2017 — Signing the MOU with Zambia Ambassador to the UN

August 12, 2017 — Visit H.E. Mr. Fode Seck,
Permanent Representative of the Republic of Senegal to the United Nations

July 14, 2017 — Meeting with H.E. Antonio(Ambassador) at permanent observer mission of the United Nations

August 26, 2017 — High-Level Global Meeting at the ECOSOC Chamber. Presidents, ministers, and distinguished guests from around the world gathered together — Let's change the world!

September 19, 2017 — Making efforts to align the pillars of SICA with the SDGs and to strengthen SICA's presence within the framework of the United Nations.

September 22, 2017 — Meeting with the Zambia delegation, especially welcome H.E. Lucky Mulusa, the Minister of National Development and Planning.

September 21, 2017 — Productive meeting with prime minister of Vanuatu

September 22, 2017 — meeting with Mr. Shiraz Lakthilaka, Coordinating Secretary to the President of the Republic of Sri Lanka

September 23, 2017 — Meeting with H.E. Taneti Mamau, the President of Kiribati

February 25, 2018 — Review of the 56th Session of the Commission for Social Development. WOGC actively participated in the ECOSOC Youth Forum.

April 3, 2018 — A productive briefing was held at the Hong Kong office with the Government of the Marshall Islands. Looking forward to opening a new chapter of cooperation for all.

GLOBAL STRATEGIC COOPERATION AND HIGH-LEVEL EXCHANGES

WOGC Delegation Visits the Republic of Kiribati

H.E. Tebuai Uaai, Speaker of the Parliament of the Republic of Kiribati, warmly welcomed the World Organization of Governance and Competitiveness (WOGC) delegation at the Parliament Building. Following the meeting, H.E. President Taneti Maamau hosted a state dinner in honor of the delegation at the official guest reception.

During the visit, both sides held in-depth discussions on key strategic initiatives, including the establishment of a digital bank, the creation of a digital stock exchange, and the drafting and enactment of legislation for the Christmas Island Special Digital Administrative Zone—the world's first digital zone spanning nearly a quarter of the globe and the first to greet the sunrise each day. President Maamau expressed his strong personal friendship with the Chairman of WOGC, noting Kiribati's unique geographic distinction as the only nation that spans both the Northern and Southern Hemispheres as well as the Eastern and Western hemispheric boundaries. Despite being a small island nation with limited economic resources, Kiribati stands out for its determination to pursue proactive economic development rather than depend solely on external aid.

From the moment of arrival, the delegation was accorded full state honors. A grand dinner was held in Parliament Square, attended by twelve cabinet ministers, including the First Lady, the President of Congress, the Vice President, and the Ministers of Finance, Justice, Homeland Security, and Energy. The evening concluded with a spectacular traditional dance performance, symbolizing the deep friendship and future cooperation between Kiribati and WOGC.

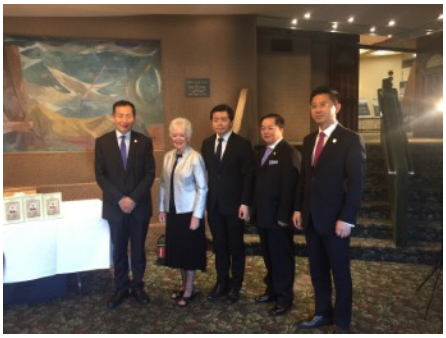

WOGC Participates in Commemorative Activities for Jewish Refugees

September 24, 2016 — The World Organization of Governance and Competitiveness (WOGC) was invited to attend a commemorative event in New York City honoring Jewish refugees who found sanctuary in Shanghai during World War II. Among the attendees were two surviving refugees, including Ms. Betty, whose vitality and optimism deeply moved everyone present. The ceremony powerfully reflected the resilience, courage, and enduring gratitude of the Jewish people. During the event, many World War II survivors warmly greeted the WOGC representatives in Chinese, saying, “How are you?” and “Thank you!” — heartfelt words that bridged generations and nations. The commemoration served as a profound reminder of the importance of peace, compassion, and human solidarity, values that lie at the heart of WOGC’s mission to promote global harmony and sustainable development.

WOGC Visits Greece for Exchange and Cooperation

March 7, 2016 — At the invitation of Mr. Panos Laskaridis, Chairman of the Aikaterini Laskaridis Foundation, and Mr. George C. Economou, Attorney General of the European Transport Industry, the Chairman of WOGC and his delegation made an official visit to Greece. During the visit, the delegation held in-depth discussions with representatives from academic, maritime, and business sectors to explore opportunities for collaboration in global governance, sustainable development, education, and marine economy. The meeting emphasized the importance of strengthening international partnerships and enhancing mutual understanding between Europe and other regions. The visit not only deepened WOGC’s engagement with leading European institutions but also laid the groundwork for future cooperation projects under the framework of global competitiveness and sustainable innovation.

WOGC Visits Sri Lanka Ministry of Industry and Commerce

May 12, 2016 — At the invitation of H.E. Dr. Palitha T. B. Kohona, then Minister of Foreign Affairs of Sri Lanka, the Chairman of WOGC led a high-level delegation on an official visit to Sri Lanka. During the visit, the delegation held constructive meetings with senior officials from the Ministry of Industry and Commerce, as well as representatives from economic and investment sectors. The discussions focused on promoting bilateral cooperation in trade, industrial development, sustainable investment, and innovation-driven growth.

WOGC visits the Ministry of Foreign Affairs of El Salvador

June 28, 2016 — The President led a delegation to visit the Republic of El Salvador. The visit was jointly initiated by the Office of the President of El Salvador, the intergovernmental organization SICA (Central American Integration System), and PT (Trichetino Plan), aiming to promote regional cooperation and sustainable development. The meeting further strengthened WOGC's engagement with Central American partners in advancing innovation and inclusive growth, laying a solid foundation for future collaboration in digital economy and governance.

WOGC Visits Honduras Ministry of Public Works

June 30, 2016 — At the invitation of H.E. Juan Orlando Hernández, President of the Republic of Honduras, the Chairman of WOGC led a delegation on an official visit to the country. During the visit, the delegation held discussions with senior officials from the Ministry of Public Works on strengthening cooperation in infrastructure development, sustainable construction, and digital innovation. The meeting emphasized the importance of public-private partnerships in advancing national development goals. This visit marked a new step in WOGC's collaboration with Honduras and further deepened ties with Central American nations under the SICA framework.

WOGC Visits the Ministry of Social Development of Guatemala

June 30, 2016 — At the invitation of H.E. Jimmy Morales, President of the Republic of Guatemala, the Chairman of WOGC led a delegation on an official visit. The delegation was received by H.E. José G. Moreno, Minister of Social Development of Guatemala. Both sides held cordial discussions on promoting social inclusion, poverty reduction, and sustainable community development, highlighting the shared commitment to advancing regional progress under the SICA framework.

WOGC Visits the Ministry of Economic Development of Honduras

On the morning of July 1, 2016, H.E. Arnaldo Castillo, Minister of Economic Development of Honduras, received the WOGC delegation. Both sides held in-depth discussions on strengthening cooperation in trade, investment, and sustainable economic development. The Minister expressed appreciation for WOGC's commitment to promoting international collaboration and welcomed future initiatives to support Honduras's economic growth.

WOGC and the Government of Sri Lanka Jointly Conduct Disaster Relief Activities

August 17, 2016, — World Organization of Governance and Competitiveness (WOGC), in cooperation with the Sri Lankan Ministry of Health, Ministry of Foreign Affairs, and Ministry of Land, jointly organized a disaster relief operation in the town of Giribawa, located in northwestern Sri Lanka. The WOGC delegation delivered a substantial amount of humanitarian aid and essential relief supplies to support local residents affected by recent natural disasters.

Support Secretary General Ban Ki-moon's Initiative to Promote Sustainable Energy for All

July 28, 2016 — In line with United Nations General Assembly Resolution A/RES/70/1, *"Transforming Our World: The 2030 Agenda for Sustainable Development"*, adopted on September 25, 2015, UN member states acknowledged that eradicating all forms of poverty, including extreme poverty, remains the most formidable global challenge and a fundamental prerequisite for achieving sustainable development. Access to sustainable and affordable energy for all is essential to drive economic growth, improve living standards, and protect the environment. The United Nations continues to lead efforts to ensure that clean energy solutions are available, inclusive, and equitable for every community worldwide.

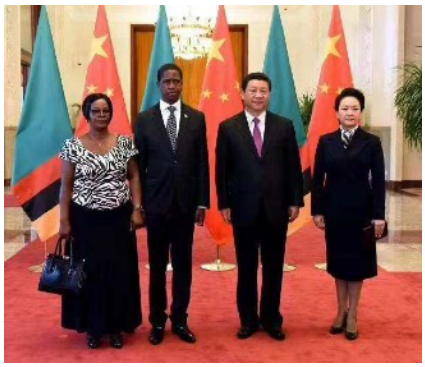

Deputy Prime Minister of Tuvalu Meets the Representative of WOGC

Ms. Puakena, Deputy Prime Minister and Minister of National Resources of Tuvalu, held in-depth discussions with representatives of WOGC. Both parties have expressed a preliminary intention to establish a comprehensive strategic partnership at the national level, aimed at jointly supporting the country's development. Tuvalu plans to introduce laws and policies through its Parliament that will be fully aligned with the organization's initiatives. As the fourth smallest country in the world, Tuvalu is already preparing measures to address the challenges posed by rising sea levels, including potential relocation to New Zealand. We are confident in our ability to assist Tuvalu in safeguarding its homeland.

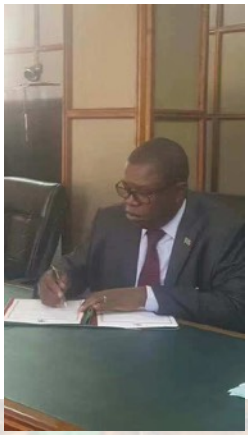

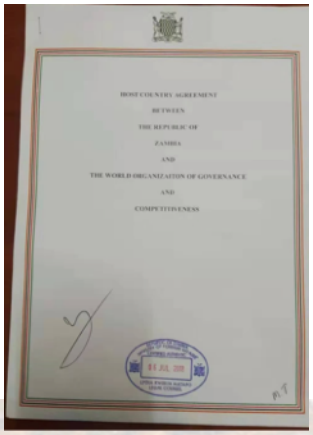

The Republic of Zambia and WOGC Sign Host Country Agreement

Warm congratulations to the Ministry of Foreign Affairs of the Republic of Zambia and WOGC on signing the letter of credence agreement, formally recognizing WOGC's sovereign diplomatic status. Zambia, as the first country in Southern Africa to establish diplomatic relations with China, has long been a key partner among China's African allies. One of the earliest major projects supporting Africa, the Tanzania-Zambia Railway, was personally overseen by Premier Zhou Enlai.

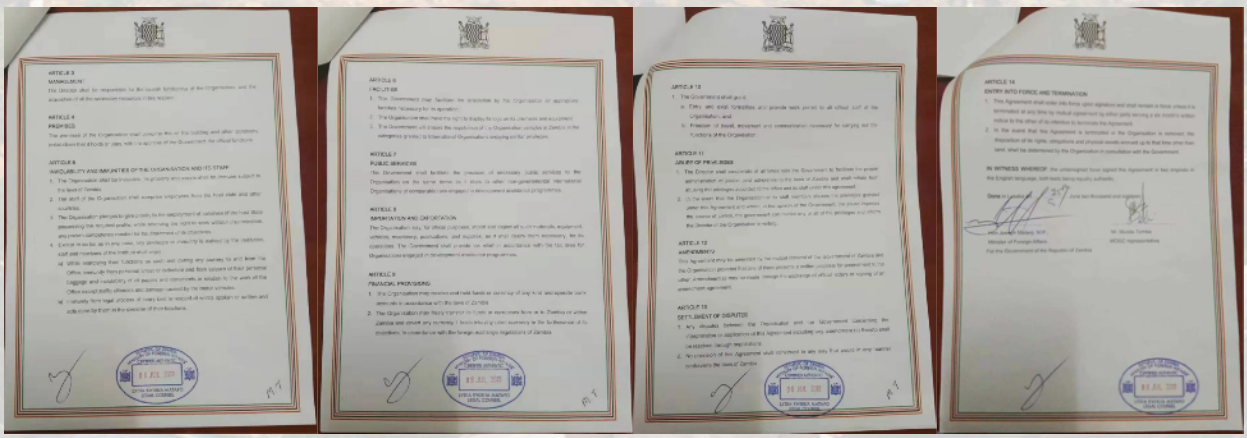

Since the opening of the WOGC Embassy in Zambia, the organization has received strong support from the Zambian government in joining the intergovernmental organization led by WOGC. Most recently, WOGC and the Zambian Ministry of Foreign Affairs formally signed a diplomatic agreement recognizing each other's sovereign diplomatic status. We extend our sincere thanks to the Zambian Minister of Foreign Affairs and the WOGC Ambassador to Zambia for their dedication and efforts in achieving this milestone.

WOGC Signs Comprehensive Strategic Cooperation Memorandum with the Sri Lankan Government

November 8, 2016 — World Organization of Governance and Competitiveness (WOGC) visited Sri Lanka and held a meeting with President H.E. Maithripala Sirisena to present the organization's initiatives across the United Nations, Latin America, and Southeast Asia. His Excellency T.B. Ekanayake, Minister of Land and Resources of Sri Lanka, together with the Chairman of WOGC, formally signed a memorandum of strategic cooperation, marking a significant step in strengthening bilateral collaboration. This agreement lays the foundation for long-term cooperation and mutual support in sustainable development and international initiatives.

United Nations Global South-South Development Expo

From October 31 to November 3, 2016, the United Nations Global South-South Development Expo (GSSD Expo) was successfully held in Dubai. Dr. Palitha T. B. Kohona, Vice Chairman of the World Organization of Governance and Competitiveness (WOGC), former Permanent Representative of Sri Lanka to the United Nations, and former Minister of Foreign Affairs of Sri Lanka, addressed the event on behalf of WOGC. He emphasized that one of the major challenges facing the world today is that contemporary youth have not yet acquired the skills needed to meet the demands of the modern era. WOGC is committed to supporting youth development through education, training, and international collaboration. By equipping young people with the skills required for the 21st century, the organization aims to foster innovation, leadership, and sustainable growth worldwide.

WOGC Delegation Visits the Republic of Vanuatu

Prime Minister Charlot Salwai of Vanuatu, representing the Republic of Vanuatu, signed a strategic cooperation agreement with WOGC at the sovereign national level, marking a visit and signing ceremony of considerable significance.

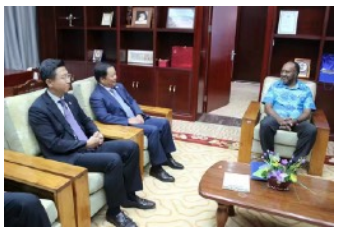

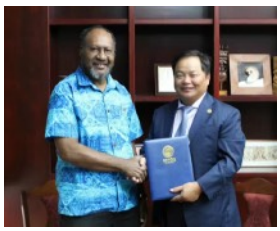

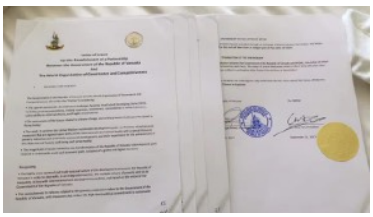

First, Vanuatu is a key Pacific Island nation where China has been deeply engaged. Both the Prime Minister's Office and the airport were built with Chinese assistance. Moreover, the first direct flight route from mainland China to the Pacific region will soon be launched, addressing the long-standing absence of direct flights between China and the Pacific. This development carries significant strategic importance for initiatives such as the Belt and Road.

Second, international organizations typically sign agreements with a country's relevant ministries or agencies—for instance, UNESCO with a Ministry of Education or the International Tourism Organization with a national tourism bureau. Only when cooperation is recognized as having sovereign significance does a Prime Minister personally sign an agreement. This marks the first sovereign-level signing since Zambia's agreement with WOGC and symbolizes the growing recognition of WOGC's international status as an intergovernmental organization among its member states. The application for WOGC's United Nations registration number is also set to commence soon.

Notably, the Prime Minister himself demonstrated extraordinary enthusiasm. After the agreement was reviewed by Parliament and the Ministry of Justice, he signed and filed it in advance, awaiting the WOGC delegation for the joint signing. He also declared that all "green lights" would be given—any proposal put forward by WOGC will receive full support.
This agreement represents the first official recognition of the digital economy by a sovereign state. The world's first batch of digital assets to be issued will be used to construct tens of thousands of integrated housing units, providing a strong endorsement of the digital economy concept and the principles upheld by WOGC.

Looking ahead, more than a dozen countries are expected to sign similar agreements with WOGC, marking the beginning of a new era of international cooperation.

Kiribati Officially Issues the World's First Licenses for a Digital Central Bank, Digital Stock Exchange, Digital Lottery, and Digital Investment Company

On November 2, 2017, the central government of Kiribati and WOGC signed a comprehensive strategic cooperation memorandum in Tarawa, the capital of Kiribati, jointly ushering in the era of the "digital economy." This landmark event received strong support from the World Bank, major United Nations agencies, and numerous countries across the Pacific, Latin America, and Africa.

At the signing ceremony, His Excellency Taneti Maamau, President of Kiribati, together with Negi Mamoru, Chairman of WOGC, officially announced the launch of the "digital economy" and the concept of "Digital Kiribati," marking a historic milestone in the global digital transformation.

Global United University Hosts the First Preparatory Meeting of the Chinese Delegation for the GUU Leadership Excellence Program

On February 12, 2017, the World Organization of Governance & Competitiveness for the UNSDGs (WOGC) hosted the first preparatory meeting of the Chinese delegation for the GUU Leadership Excellence Program at the Shangri-La Hotel in Futian District, Shenzhen. The meeting aimed to prepare Chinese delegates for active participation in the program, fostering leadership skills and global governance awareness. It also provided a platform for participants to exchange ideas and align strategies to contribute effectively to the UN's Sustainable Development Goals.

Global United University Signs Comprehensive Strategic Cooperation Agreement with Incheon National University

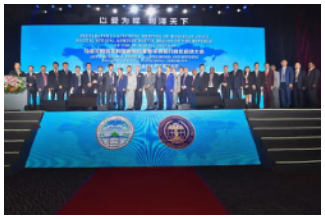

On November 27, 2017, Global United University, a directly affiliated secondary institution of WOGC, signed a comprehensive strategic cooperation agreement with Incheon National University, a national university directly under the Ministry of Education of the Republic of Korea.

Under the agreement, the two institutions jointly established the School of Digital Economy, offering bachelor's, master's, and doctoral programs in digital economy. All tuition fees can be paid using GDA, the digital currency issued by the World Digital Central Bank. Furthermore, all commercial establishments in the Songdo district of Incheon also accept GDA as a valid form of payment.

This partnership marks the first time a sovereign nation has officially recognized a sovereign-issued digital legal tender, representing a landmark milestone in the era of the digital economy.

World's First Digital Special Administrative Region Announced

On April 3, 2018, the Preparatory Committee for the Rongelap Special Administrative Region of the Republic of the Marshall Islands, in collaboration with the World Organization of Governance and Competitiveness (WOGC), held the Digital Special Administrative Region Launch Conference at the Asia World Expo in Hong Kong. The event was attended by numerous political leaders and dignitaries from the United Nations, Asia, Latin America, Africa, and the Pacific region. At the same time, congratulatory messages were received from more than 60 countries across these regions, with political representatives attending the conference in person.

Notable attendees included: His Excellency Kessai Note, former President of the Republic of the Marshall Islands; His Excellency Francisco Merino, former President of El Salvador; His Excellency Kenneth Kedi, Speaker of the Parliament of the Republic of the Marshall Islands; His Excellency James Matayoshi, Mayor of Rongelap Atoll; His Excellency Freidi Torres, President of the National Assembly of Panama and Presidential Envoy; His Excellency Walter Antonio Chavez, Vice President of Congress and Presidential Envoy of Honduras; His Excellency Emerine Kabanshi, Minister of Development and Social Services and Presidential Envoy of Zambia; His Excellency Sylvain Kalsakau, Ambassador of Vanuatu to the UN and Presidential Envoy; and His Excellency Pierre Oniane Nguema, Ambassador of Gabon to the UN and Presidential Envoy.

Approximately 1,000 entrepreneurs from around the world also witnessed this historic moment, marking the official announcement of the world's first Digital Special Administrative Region.

NITIJELA OF THE REPUBLIC OF THE MARSHALL ISLANDS
41ST CONSTITUTION REGULAR SESSION, 2020

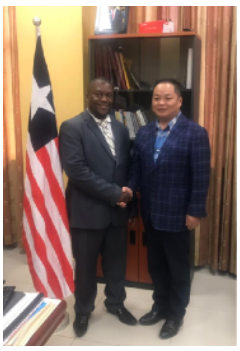

RESOLUTION 11ND1

CERTIFICATE

WOGC Visits to Liberia

During his visit to Liberia, the WOGC Chairman launched pilot projects in agriculture and education while also inspecting local infrastructure. He proposed an ambitious “Five-Year Revival Plan,” which includes the development of road networks, provision of clean water, and implementation of green energy initiatives, aiming to promote sustainable development and improve the quality of life for local communities. The Chairman also engaged with local leaders and community members to ensure that the projects meet the specific needs of each region. By fostering local participation and building capacity, WOGC seeks to create a model of sustainable growth that can be replicated across Liberia and other developing countries in the region.

WOGC Israel Conference

During his visit to Israel, the WOGC Chairman forged partnerships with leading global medical device manufacturers and visited the country’s premier medical research and development institutions, strengthening collaboration in healthcare innovation and technology.

WOGC Latin America Lamp Donation

During the solar lamp charity project in Latin America, WOGC engaged with local community leaders to discuss how clean energy development could strengthen rural economies. WOGC collaborated with multiple non-governmental organizations (NGOs) from various countries to implement an innovative “Light-for-Energy” model, which encouraged community members to use solar lamps while promoting the adoption of small-scale solar power stations. This approach not only addressed electricity shortages but also created sustainable income opportunities for the communities, fostering long-term economic and environmental benefits. The project also served as a platform for knowledge sharing, allowing communities to learn about renewable energy technologies and best practices. By demonstrating the social and economic potential of clean energy, WOGC aims to inspire similar initiatives across Latin America and other developing regions.

Chairman Meets Iroijlaplap of the Republic of the Marshall Islands

On August 31, 2018, the WOGC Chairman attended the Kabua family celebration in the Marshall Islands and was honored with the highest level of ceremonial reception by Iroijlaplap Mike Kabua. During the event, the Chairman exchanged insights on regional development, governance, and cultural preservation with the Kabua family and local leaders. The reception also underscored the deepening relationship between WOGC and the Republic of the Marshall Islands, highlighting mutual respect, collaboration, and the promotion of sustainable development in the Pacific region.

WOGC Visit to Rongelap Atoll, the Republic of the Marshall Islands

During his visit to Rongelap Atoll, the WOGC Chairman met with representatives of local fishing and agricultural communities to present the preliminary implementation plan for the “Blue Future Initiative.” The plan includes the establishment of coastal ecological protection zones, the development of sustainable marine fishing technologies, and the creation of local employment opportunities through community cooperatives. In addition, WOGC committed to providing educational resources for the island’s schools to foster environmental awareness across generations, ensuring that sustainable practices are embraced by the entire community. The initiative is designed to serve as a model for other Pacific Island nations, demonstrating how environmental protection and economic development can go hand in hand. By combining innovation, community engagement, and education, WOGC aims to promote long-term resilience and sustainable livelihoods in vulnerable coastal regions worldwide.

Attendance at the Kwajalein Atoll Government Celebration, the Republic of the Marshall Islands

At the invitation of Iroijlaplap Mike Kabua, the WOGC Chairman attended the Kwajalein Atoll Government’s celebration in the Republic of the Marshall Islands. During the visit, he also held a meeting with His Excellency David Kabua, President of the Republic of the Marshall Islands, to discuss matters of mutual interest and regional cooperation.

WOGC Visits to Puerto Rico

At the invitation of local authorities, the WOGC Chairman visited Puerto Rico, conducting an aerial inspection of the island's resources by helicopter. During the visit, he personally toured areas severely affected by hurricanes and met with key leaders overseeing post-disaster reconstruction projects. In his remarks, he emphasized that Puerto Rico's recovery efforts represent a microcosm of the global fight against climate change. He also proposed the establishment of a Regional Climate Disaster Early Warning and Response Center to integrate scientific technology with international aid resources, providing coordinated support for disaster management across the Caribbean region.

WOGC Visits to Malaysia

At the invitation of the Malaysian Parliament, the WOGC Chairman visited Kuala Lumpur and held meetings with the Speaker of Parliament and several ministerial-level officials. The discussions focused on infrastructure development under the Belt and Road Initiative, clean energy projects, and initiatives to promote cultural exchange between Malaysia and WOGC.

WOGC Visits to Regent's University of Thailand

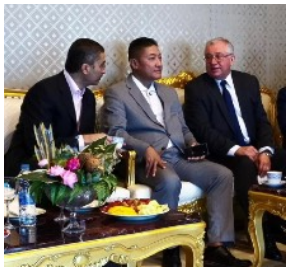

During his visit to Regent's University of Thailand, the WOGC Chairman announced the launch of the Global Digital Campus Alliance, a program involving 30 universities worldwide designed to promote the sharing of educational resources through digital technologies. WOGC also pledged funding to support a group of outstanding scholars from developing countries, enabling their active participation in the university's research programs and fostering international academic collaboration.

WOGC Chairman Meets His Highness Prince Khaled of Abu Dhabi, United Arab Emirates

During the WOGC High-Level Cooperation Forum in Thailand, the WOGC Chairman held a significant bilateral meeting with His Highness Prince Khaled of Abu Dhabi. The two sides reached an important consensus, committing to strengthen cooperation through joint investments aimed at advancing energy structure transformation and promoting the development of the digital economy across the Middle East and Southeast Asia.

WOGC Participation in the World Economic Forum in Davos, Switzerland

At the “Green Future” sub-forum, WOGC announced a multinational carbon trading market initiative designed to provide developing countries with access to low-cost carbon reduction technologies while offering developed nations more efficient pathways to achieve emission reduction targets. The initiative aims to foster global collaboration in combating climate change and advancing sustainable development.

Meeting with Nobel Laureate Robert Mundell

During a closed-door discussion in Hong Kong, WOGC and Nobel Laureate Robert Mundell engaged in an extensive exchange on the digital economy and blockchain technology. WOGC announced plans to develop a Global Digital Economy Index based on Professor Mundell’s economic theories, aiming to provide policy guidance and strategic insights for developing countries seeking to advance their digital and economic development.

Attendance at the 2017 Inauguration Ceremony of President Donald Trump

As a representative of a major global organization, the WOGC Chairman was invited to attend the inauguration ceremony of President Donald Trump in 2017. During his visit to Washington, he held several closed-door meetings with political leaders and business executives from multiple countries, discussing future directions for trade liberalization, energy cooperation, and climate action.

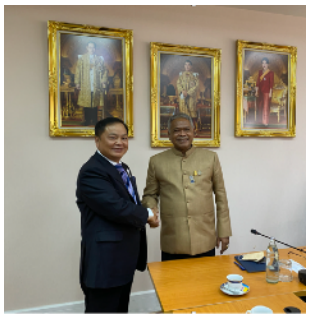

Meeting with the Ministry of Agriculture of Thailand

In 2019, WOGC Chairman visited Thailand at the invitation of the government, conducting a multi-day working mission in Bangkok. He met with the Minister of Agriculture to discuss agricultural modernization, smart agriculture, and sustainable rural development, reaching several key cooperation agreements.

WOGC committed to supporting the Ministry in agricultural product digitization, international market expansion, and agricultural financial system development. Chairman also met with senior officials from the Ministry of Defense to discuss national and food security and emergency reserves. Additionally, memorandums were signed with leading Thai universities to promote joint research on smart agriculture, blockchain traceability, and eco-sustainability.

A strategic partnership was also established with the Cooperative League of Thailand (CLT) to help over six million farmers enhance product value, boost incomes, and advance rural revitalization. The visit marked the launch of multi-sector cooperation between WOGC and Thailand, laying a foundation for sustainable agriculture, digital economy initiatives, and international collaboration.

WOGC Chairman Visits the Ministry of Defense of Thailand

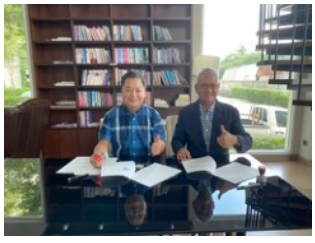

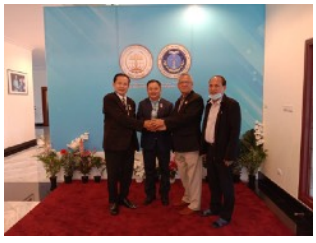

At the invitation of the Thai government, the WOGC Chairman visited the Ministry of Defense of Thailand to discuss disaster preparedness, food security, and emergency management. During the visit, he exchanged ideas with senior officials on strategies to enhance resilience and improve community support systems. The meeting strengthened collaboration and laid the groundwork for ongoing joint initiatives in disaster response and sustainable development.

Collaboration with Mr. Wattana, Respected Thai Social Leader

During the meeting, WOGC Chairman and Mr. Wattana reached an agreement to establish a Joint Cannabis Agriculture Research Center. The center will focus on optimizing cannabis cultivation and processing technologies and advancing innovative medical applications, aiming to promote research-driven development in the field of medicinal cannabis.

WOGC Chairman Visits to Various Permanent Missions to the United Nations

INTRODUCTION TO DIRECTLY AFFILIATED INSTITUTIONS OF THE ORGANIZATION

World Governance and Strategic Cooperation International Organization (WGSC)

The World Governance and Strategic Cooperation International Organization (WGSC) is committed to promoting international cooperation, regional integration, and strengthening strategic collaboration within the framework of the United Nations Sustainable Development Goals (SDGs). WGSC unites government representatives, international organizations, academic institutions, and private sector partners from across the globe to create a platform for cross-border governance and strategic cooperation, grounded in the principles of openness, transparency, and collaboration.

World Digital Identity and Currency Authority (WICA)

The World Digital Identity and Currency Authority (WICA) is an international organization dedicated to promoting the unification and implementation of global digital identity systems and digital currency authentication standards, supporting the development of the future digital economy and global governance. WICA is committed to establishing a reliable digital identity management system and an authoritative currency authentication framework across borders, regions, and industries, ensuring security, interoperability, and trust in the digital era.

World Digital Central Bank (WDCB)

The World Digital Central Bank (WDCB) is a landmark initiative jointly launched by the World Organization of Governance and Competitiveness (WOGC), multiple international institutions, sovereign states, and global financial organizations during the United Nations General Assembly on September 20, 2016. The initiative has received broad recognition and support from the international community and has become a key pillar of the global digital financial governance system.

World Digital Finance International Holdings Group (WDFIHG)

The World Digital Finance International Holdings Group (WDFIHG) is a multinational financial holding platform established amid the rapid growth of the global digital economy. Initiated jointly by the World Organization of Governance and Competitiveness (WOGC), multinational financial institutions, and strategic investors, the group aims to integrate global financial resources while promoting the standardization, institutionalization, and internationalization of the digital financial system. On November 3, 2017, WDFIHG was legally registered and established in the Republic of Kiribati, receiving registration number 168, serving as a cross-border platform for digital financial collaboration.

World Digital Lottery Group (WDLG)

The World Digital Lottery Group (WDLG) is a global digital entertainment and lottery industry consortium jointly initiated by international investment institutions, digital technology companies, and strategic partners. The group was officially registered and established in the Republic of Kiribati on November 3, 2017, receiving registration number 170, and possesses full international legal status.

World Digital Stock Exchange (WDSE)

The World Digital Stock Exchange (WDSE) is a global digital capital market platform jointly initiated by the World Organization of Governance and Competitiveness (WOGC), multiple financial regulatory agencies, sovereign states, and international capital market organizations. In 2017, WDSE received official approval from the government of the Republic of Kiribati and was legally registered in its capital, Tarawa, with registration number 169.

World Governance and Strategic Cooperation International Organization (WGSC)

The World Governance and Strategic Cooperation International Organization (WGSC) is a key affiliated institution of the World Organization of Governance and Competitiveness (WOGC), formally established under the WOGC Charter. WGSC was founded to advance WOGC's strategic mission, promote the modernization of the global governance system, implement sustainable development agendas, and strengthen international coordination mechanisms and multilateral cooperation networks. It is responsible for executing strategic cooperation, policy research, and international project initiatives authorized by the WOGC Council. The organization was approved by the WOGC Presidium in March 2024, legally registered as a corporate entity in April 2025, and has received active support from representatives of the United Nations system and multiple national governments.

Mission and Purpose

Building on WOGC's core principle of "promoting global cooperation and jointly building a community with a shared future for humanity," WGSC focuses on:

- **Global Governance Coordination:** Strengthening policy alignment on key issues, including climate change, public health, food security, and digital governance.
- **Strategic Cooperation:** Advancing sustainable development and enhancing competitiveness through multilateral dialogue and regional collaboration.
- **Institutional and Policy Innovation:** Researching and promoting innovative global governance mechanisms and international cooperation models.
- **International Partnerships:** Deepening strategic collaboration with governments, international organizations, and civil society within the United Nations framework.

Organizational Status

WGSC is an independent legal entity within the WOGC system, maintaining strategic coordination with the WOGC headquarters while operating under the guidance and supervision of the WOGC Council and Presidium. Its establishment represents an important milestone in enhancing WOGC's operational capabilities and advancing professional and institutionalized approaches in international policy research, strategic coordination, and project implementation.

Key Features

- Clear Structure: Established under the WOGC Charter with independent legal status and defined operational authority.
- Global Reach: Maintaining a multi-layered cooperation network spanning Asia, Africa, Latin America, and Europe.
- Multilateral Collaboration: Engaging governments, academia, the private sector, and NGOs to address global challenges.
- Innovation-Oriented: Focusing on frontier areas such as digital economy, artificial intelligence, clean energy, biotechnology, and health industries.
- Mission Alignment: Fully executing WOGC's strategic plan and ensuring the effective implementation of international cooperation outcomes.

Vision

WGSC aims to serve as a central hub for global governance innovation, a key platform for international strategic cooperation, and a driving force for advancing the United Nations Sustainable Development Goals (SDGs). Through professional, institutionalized, and internationalized operations, WGSC is committed to contributing to global peace, prosperity, and shared development.

Organization Management Framework

Chairman: Alan Dong

Co-Chair: Jack Xiao

Secretary-General: Peter Yao

Council Members (in no particular order):

Terens Pang Yin Kwee, David Zhou, Zhen Wang, Daopeng Song, Yinzhi Chen, Mengyang Li, Baoguo Zheng, Bin Chen, Gang Yu, Bill Zhao, Brian Ong Koon Hoong

Introduction to Alan Dong

Alan Dong is the Chairman of the World Governance and Strategic Cooperation International Organization (WGSC). He has long been committed to advancing pragmatic exchanges and cooperation among countries in the fields of global governance, sustainable development, strategic collaboration, and the digital economy.

Under his leadership, WGSC embraces the global principles of *co-construction, sharing, and co-governance*. The organization actively participates in international affairs and multilateral cooperation mechanisms, promoting dialogue and collaboration among governments, think tanks, enterprises, and civil society organizations. Chairman Dong has contributed significantly to building a fairer, more open, and sustainable international governance system.

He advocates fostering global cooperation through innovative thinking and cross-border integration, and promoting common prosperity and long-term sustainable development through digital technology, green economy initiatives, and financial innovation. Under his guidance, WGSC has become a leading platform connecting multilateral actors and advancing international cooperation with foresight and a global perspective.

Introduction to Jack Xiao

Jack Xiao serves as the Co-Chair of the World Governance and Strategic Cooperation International Organization (WGSC). He has spent over a decade working in international organizations, specializing in the digital economy and global finance.

With extensive experience in global governance and project development across multiple countries and regions, Co-Chair Xiao has actively contributed to advancing the United Nations Sustainable Development Goals. Known for his strategic insight and innovative thinking, he has played a key role in the management and establishment of international organizations.

Looking forward, Co-Chair Xiao aims to harness cutting-edge global

Introduction to Peter Yao

Peter Yao (Yao Zhengxiong) is the Secretary-General of the World Governance and Strategic Cooperation International Organization (WGSC). He oversees the organization's daily operations and coordination, serving as a vital link between the presidium, council, departments, and member entities.

As Secretary-General, Peter Yao leads the implementation of WGSC's strategic plans and annual goals, organizes meetings and forums, coordinates projects and external communications, and promotes the development of internal mechanisms and institutional processes. He also represents WGSC in supporting international cooperation, integrating resources, and ensuring the smooth execution of projects across departments.

Renowned for his organizational expertise, administrative experience, and international perspective, Peter Yao is dedicated to building WGSC into an efficient, responsive, and structured global public affairs platform. He champions a work style of *"fine management and open collaboration"*, driving the organization's sustainable development and expanding its global influence through institutionalized and procedural excellence.

World Digital Identity and Currency Authority (WICA)

The World Digital Identity and Currency Authority (WICA) is an international organization dedicated to shaping the future of the digital economy and global governance. Its mission is to promote the unification and implementation of global digital identity systems and digital currency authentication standards. WICA is committed to establishing trusted digital identity management mechanisms and authoritative currency certification frameworks across borders, regions, and industries, providing secure, transparent, and compliant safeguards for digital finance, cross-border payments, and the circulation of digital assets.

The establishment of WICA aligns with the core principles of the United Nations Sustainable Development Goals (SDGs), particularly those promoting sustained, inclusive, and sustainable economic growth (SDG 8), building effective, accountable, and inclusive institutions (SDG 16), and fostering partnerships for development (SDG 17). WICA emphasizes advancing global digital governance and inclusive finance through multilateral cooperation.

Core Mission

- Digital Identity Governance: Promote internationally unified digital identity authentication standards to ensure secure and mutually recognized cross-border identity verification.
- Digital Currency Authentication and Compliance: Develop certification mechanisms for global digital currencies and encrypted assets, ensuring legality, transparency, and regulatory compliance.
- Financial Security and Trust: Establish a foundation of trust for the global digital financial system, mitigating money laundering, fraud, and cross-border financial risks.
- Strategic Cooperation and Innovation: Collaborate with governments, central banks, international organizations, and technology companies to promote the use of digital currencies, blockchain, and artificial intelligence in governance and finance.

Leadership Structure

- Chairman: Terens Pang Yin Kwee (Malaysia)
  Responsible for setting strategic direction, managing international relations, and leading major policy initiatives, representing WICA on the global stage.
- Secretary-General: Ong Koon Hoong (Malaysia)
  Oversees Secretariat operations, implements tasks assigned by the Chairman, coordinates international cooperation and standard-setting, and promotes global implementation of digital identity and currency certification systems.

Organizational Features

- International Authority: As the world's first organization dedicated to "digital identity + currency authentication," WICA develops internationally recognized standards.
- Multilateral Cooperation: Builds an open cooperation platform with governments, central banks, technology companies, academic institutions, and NGOs.
- Frontier Innovation: Focuses on integrating digital identity, digital currency, blockchain, artificial intelligence, and financial compliance.

Vision

WICA envisions achieving global mutual recognition of digital identity and integrated currency authentication by 2030, providing a solid foundation for a new era of trustworthy, transparent, and secure digital governance.

Introduction to Terens Pang Yin Kwee (Malaysia)

Terens Pang Yin Kwee is the Chairman of the World Digital Identity and Currency Authority (WICA). He is an expert in international resource integration and digital transformation, with extensive cross-sector and cross-regional practical experience.

Chairman Pang specializes in building public-private collaboration bridges to drive the innovative development of the digital economy across the Asia-Pacific region. He has spearheaded the development of mineral supply chain networks spanning over 20 countries and established investment platforms for emerging market infrastructure. He also serves as Digital Economy Advisor to Thailand's Ministry of Interior, actively contributing to ASEAN digital economic development planning.

With deep expertise in the commercialization of digital technologies, Chairman Pang has led end-to-end projects ranging from Brunei's Royal Family satellite communication systems to the UK's cybersecurity defense applications. As a blockchain finance innovator, he has designed supply chain finance and digital asset tokenization solutions.

He has also established a Southeast Asia–Commonwealth transnational cooperation network and contributed to the development of ASEAN digital governance frameworks and international blockchain application standards. Chairman Pang is recognized for his strategic vision, international perspective, and ability to promote cross-border collaboration and standardization in the digital economy.

Introduction to Zhang Xueqin

Zhang Xueqin serves as the Vice-Chairman of the World Digital Identity and Currency Authority (WICA). He is an experienced professional in international trade, talent development, and large-scale event planning, with extensive expertise in cross-border business coordination and cultural initiatives.

Vice-Chairman Zhang has coordinated and facilitated international business affairs through his role as Yiwu Regional Director at China International Talent Development Co., Ltd., ensuring smooth execution of cross-border commercial exchanges. He also led projects at Zhuji International Trade City, supporting municipal investment promotion initiatives and overseeing the construction and operation of the International Trade Transaction Center to boost regional foreign trade.

In addition, he served as an International Trade Consultant for the Linyi Municipal Government, assisting in establishing a Comprehensive International Trade Service Center to support local enterprises in global business. He has organized numerous national trade fairs and conferences, coordinating international resources and effectively linking domestic and international business networks.

Vice-Chairman Zhang has also accumulated extensive experience in large-scale cultural event planning, serving as Assistant Chief Planner for productions such as *Ancient Charm of Zhenyuan*, the musical *Sunrise Over Shaoshan*, and the First Shenzhen International Cultural Industries Expo, as well as contributing to the *Flight Through Tianmen Mountain* event.

Introduction to Brian Ong Koon Hoong (Malaysia)

Brian Ong Koon Hoong serves as the Secretary-General of the World Digital Identity and Currency Authority (WICA). He is an expert in digital governance and international resource integration, dedicated to advancing global digital identity systems and stable currency governance mechanisms under the framework of the UN Sustainable Development Goals.

Secretary-General Ong has extensive experience in multilateral collaboration, cross-border blockchain finance, and ASEAN digital economy policy coordination, with active engagement in UN systems and intergovernmental initiatives.

He has led the formulation of digital governance standardization frameworks across ASEAN and the Asia-Pacific region, promoting blockchain and financial compliance standards. He has also designed foundational infrastructures for cross-border digital identity and currency interoperability, driving inclusive economic growth.

In addition, Secretary-General Ong has integrated resources from UN and national agencies to establish public-private cooperation platforms supporting sustainable development. He has led digital transformation initiatives in traditional industries, including smart city projects, energy governance, and blockchain-based applications, demonstrating strategic vision and innovative leadership in the digital economy.

World Digital Finance International Holdings Group (WDFIHG)

The World Digital Finance International Holdings Group (WDFIHG) is a multinational financial holding platform established against the backdrop of the rapidly growing global digital economy. Jointly initiated by the World Organization of Governance and Competitiveness (WOGC) along with international financial institutions and strategic investors, WDFIHG aims to integrate global financial resources and promote the standardization, institutionalization, and internationalization of the digital financial system.

Legally registered in the Republic of Kiribati on November 3, 2017 (Registration No. 168), WDFIHG possesses full international legal status and serves as a crucial hub for global digital financial governance and capital operations.

Core Business

1. Digital Finance Holding
   - Oversee integrated management of digital financial subsidiaries and platforms, including banks, securities, insurance, funds, and payment services.
   - Promote the integration of digital assets, fintech, and traditional capital markets.
2. Digital Currency and Payment Systems
   - Collaborate with the World Digital Central Bank (WDCB) to support the circulation of internationally recognized digital currencies anchored to fiat currencies, precious metals, securities, and assets.
   - Establish a globally unified cross-border payment and settlement system.
3. Digital Securities and Capital Markets
   - Manage and operate the World Digital Securities Exchange (WDSE), providing services for securities, bonds, funds, asset digitization, and international listing and trading.
4. International Investment and Industrial Development
   - Invest in global high-end technology, energy, healthcare, infrastructure, and other strategic industries to promote cross-border industrial cooperation.
   - Build an inclusive investment ecosystem driven by digital finance.

Organizational Features

- International Legality: Registered and established in Kiribati (Nov 3, 2017, Reg. No. 168) with full international legal recognition.
- Global Presence: Business operations span Asia, Africa, Europe, and the Americas.
- Holding Structure: Subsidiaries include banks, exchanges, investment funds, fintech platforms, and more.
- Strategic Role: Serves as the core platform of the digital finance industry chain, integrating global digital economy governance and capital circulation.

Vision

WDFIHG envisions:

- Establishing a globally leading digital financial holding system by 2035.
- Promoting the digitization and inclusiveness of international capital markets.
- Building a secure, transparent, and sustainable global financial governance model.
- Becoming a strategic leader and capital hub for the digital economy and sustainable development.

Leadership

- Honorary Chairpersons: Alan Dong, Peter Yao, Chen Yinzhi, Zheng Baoguo
- Chairman: Li Mengyang

Chairman Li Mengyang also serves as Chairman of World Digital Stock Exchange and Chairman of World Digital Lottery Group. A PhD in Finance, he has extensive experience in international finance and commodity trade, with decades of expertise in exchange management and in-depth research on digital economy and big data technologies.

World Digital Central Bank (WDCB)

The World Digital Central Bank (WDCB) is a landmark initiative jointly launched by the World Organization of Governance and Competitiveness (WOGC), international institutions, sovereign states, and financial organizations during the United Nations General Assembly on September 20, 2016. The initiative has received widespread recognition and support from the international community, becoming a core pillar of the global digital financial governance system.
Aligned with the strategic framework of the United Nations Sustainable Development Goals (UNSDGs), WDCB was officially approved by the Cabinet of the Republic of Kiribati in 2017 and legally registered on November 3, 2017, marking a new era of global financial governance centered on digital currencies.

Core Functions

1. Issuance of International Legal Digital Currencies
    - Issue digital currencies with legal status anchored to sovereign fiat currencies, precious metals, securities, and other physical assets.
    - Ensure currency stability, credibility, and risk resistance through diversified asset backing.
2. Cross-Border Payment and Settlement
    - Establish a global digital clearing network to enable real-time, low-cost, secure, and traceable cross-border transactions.
    - Serve as a critical infrastructure for international trade, investment, aid, and financial cooperation.
3. Trade and Investment Settlement
    - Utilize WDCB-issued digital currencies to facilitate international trade and cross-border investment settlements.
    - Reduce reliance on single-currency systems while enhancing diversification and security in the global financial system.
4. Financial Regulation and Compliance
    - Implement internationally standardized KYC/AML systems to ensure compliant operation of digital currencies.
    - Collaborate with central banks and regulatory agencies to promote international digital finance standards.

Organizational Features

- International Reach: Involves sovereign states, international institutions, and financial organizations with global governance attributes.
- Legal Qualification: Fully recognized international legal currency status based on national approvals and international conventions.
- Asset Anchoring: Digital currencies are supported by fiat currencies, precious metals, securities, and diversified asset portfolios.
- Multilateral Settlement: Supports global trade, cross-border investment, and multilateral financial cooperation.
- Innovative and Forward-Looking: Integrates blockchain, big data, and artificial intelligence to build a secure, trustworthy digital financial system.

Vision

By 2035, WDCB aims to:

- Establish a globally unified international legal digital currency system.
- Enable seamless cross-border payments and investment settlements.
- Provide stable, multi-asset-backed currencies ensuring global financial security.
- Promote sustainable and inclusive finance to advance global economic development and foster a shared future for humanity.

WDCB aspires to be the “world central bank of the digital age,” injecting stability, security, and innovation into the global financial system.

Leadership

- Honorary Chairmen: Alan Dong, Peter Yao
- Chairman: Song Daopeng
- Secretary-General: Vincent Wei

Introduction to Song Dao Peng

Song Dao Peng serves as the Chairman of the World Digital Central Bank (WDCB). He is an experienced professional in international finance and digital economy operations, with nearly a decade of experience across Switzerland, Canada, and other countries.

Chairman Song has held diverse professional roles, developing dual expertise in international finance and digital economy operations. He is recognized for his strengths in strategic planning implementation, digital transformation, and risk management system development.

He has formulated core strategies focused on digitalization-driven growth, inclusive finance empowerment, and premium client cultivation, implementing intelligent channel development and data-driven marketing to drive operational excellence. He has designed multi-dimensional credit scoring models and end-to-end risk control systems to achieve balanced growth in digital finance with controllable risks.

Chairman Song has also implemented advanced team governance and talent development mechanisms, including tiered training and incentive alignment. In addition, he has deepened regional government-enterprise partnerships to establish a "bank-enterprise collaboration ecosystem," integrating global resources, applying blockchain technology and data transaction models, and supporting global digital finance and cross-border settlement initiatives.

His expertise in strategy, risk management, and digital finance innovation positions him as a key leader in advancing WDCB's mission to build a secure, inclusive, and globally integrated digital financial system.

Introduction to Vincent Wei

Vincent Wei serves as the Secretary-General of the World Digital Central Bank (WDCB). He is an accomplished finance professional with extensive experience in global banking, investment management, and cross-border operations, spanning multiple countries and leading financial institutions.

Secretary-General Wei has held senior executive roles, including Chief Executive Officer of SAG Holding, where he developed and executed the Group's global corporate strategy, driving growth across capital markets, investment management, and international operations. He also served as Director and CEO of China Create Holdings Group, leading long-term corporate strategy, annual asset restructuring, and international strategic partnerships.

Earlier in his career, Secretary-General Wei gained extensive banking experience as Deputy General Manager at China Minsheng Bank, Director and Vice President at SHK Financial (Sun Hung Kai Capital), Managing Director of UBS Investment Banking Division in Hong Kong, Corporate Banking Manager at Standard Chartered Bank, and SME Relationship Manager at ABN AMRO Bank.

Secretary-General Wei's expertise spans strategic planning, cross-border finance, investment structuring, and digital financial transformation, making him a pivotal figure in advancing WDCB's mission to strengthen global digital financial governance.

Introduction to Miao Quanyi

Miao Quanyi is an accomplished entrepreneur and industry leader with extensive experience in international trade, precious metals, environmental protection, clean energy, and health industries.

He has held senior leadership roles including Legal Representative and General Manager of Anhua Group Beijing Jinda Material Trading Company, President of Beijing Zengjing Intelligent Energy Technology Research Institute, Director and CEO of Wanda (Hong Kong) Trading Group, and Director of AM Photography Limited. He also serves as Honorary President of the Macau Environmental Technology Development Association and President of the Asia-Pacific (International) Industry-Academia-Research Promotion Association.

Mr. Miao specializes in new energy technologies, LNG mobile energy systems, and cross-border trade in materials, commodities, and precious metals. He has decades of experience in international finance, securities, and promoting economic and cultural exchanges between China and Southeast Asia, combining industry innovation with strategic project management on a global scale.

World Digital Stock Exchange (WDSE)

The World Digital Stock Exchange (WDSE) is a global digital capital market platform jointly initiated by the World Organization of Governance and Competitiveness (WOGC), multiple financial regulatory agencies, sovereign states, and international capital market institutions. WDSE was officially approved by the Government of the Republic of Kiribati in 2017 and registered in its capital, Tarawa, with registration number 169, establishing full legal status. The exchange aims to advance the digitalization, internationalization, and institutionalization of global capital markets. As a multinational financial infrastructure, WDSE aligns with the United Nations Sustainable Development Goals (SDGs)and has received recognition and strategic support from multiple international organizations and financial institutions.

Core Functions

1. Issuance and Listing of Digital Securities
    - Provide compliant digital securities offerings (DSO) and private equity platforms for enterprises, governments, and financial institutions.
    - Support the digital listing of stocks, bonds, funds, derivatives, asset-backed securities, and other instruments.
2. Cross-Border Transactions and Clearing
    - Operate a blockchain-based global transaction and real-time clearing system with 24/7 accessibility.
    - Ensure secure, cost-efficient, and transparent cross-border transactions.
3. Asset Digitization and Custody
    - Promote the digitization and tokenization of physical and financial assets, including precious metals, energy, real estate, and securities.
    - Provide internationally standardized asset custody, authentication, and digital credential services.
4. Compliance and Regulation
    - Maintain close collaboration with Kiribati financial regulators and international regulatory networks.
    - Implement comprehensive KYC/AML systems to ensure market integrity and security.
    -

Organizational Features

- Legal Registration: Fully registered in Kiribati with recognized international legal status.
- Global Reach: Supported by sovereign states, international institutions, and financial organizations, serving the global investment and capital markets.
- Multi-Asset Capability: Supports digital trading of traditional securities, digital currencies, precious metals, and various physical assets.
- Technology-Driven: Leverages blockchain, big data, and artificial intelligence to create a secure, transparent, and efficient digital securities market.

Vision

WDSE aims to:

- Establish the world's first unified digital securities trading and clearing system.
- Become a global digital hub for capital markets.
- Provide a secure, compliant, and transparent platform for cross-border digital securities trading.
- Promote inclusive, digital, and sustainable development in global financial markets.

Leadership

- Honorary Chairpersons**:** Alan Dong, Peter Yao, Chen Yinzhi, Zheng Baoguo
- Chairman**:** Li Mengyang

Chairman Li Mengyang also serves as Chairman of World Digital Finance International Holdings Group and Chairman of World Digital Lottery Group. A PhD in Finance, he has extensive experience in international finance and commodity trade, with decades of expertise in exchange management and in-depth research on digital economy and big data technologies.

World Digital Lottery Group (WDLG)

The World Digital Lottery Group (WDLG) is a global digital entertainment and lottery industry group jointly initiated by international investment institutions, digital technology companies, and strategic partners. WDLG was legally registered and established in the Republic of Kiribati on November 3, 2017, with registration number 170, holding full international legal status. WDLG is dedicated to advancing the digitalization, institutionalization, and globalization of the gambling and digital entertainment industry using emerging technologies such as blockchain, artificial intelligence, and big data. Guided by principles of legality, compliance, transparency, and responsible gambling, WDLG provides a fair, safe, and reliable online entertainment experience for users worldwide.

Core Business

1. Digital Lottery
   - Operates an international blockchain-based lottery system ensuring transparent, fair, and traceable results.
   - Supports cross-border participation, with a portion of proceeds allocated to public welfare and social development.
2. Sports & eSports Betting
   - Covers football, basketball, tennis, e-sports, and other competitions with real-time betting and settlement.
   - Uses artificial intelligence to enhance prediction accuracy and user experience.
3. Online Gaming & Casino
   - Provides compliant online entertainment with VR/AR immersive experiences.
   - Supports international users via a multilingual platform.
4. Blockchain Gaming Platform
   - Offers a decentralized gambling trading and clearing system ensuring immutability, verifiability, and traceability.
   - Establishes the world's first digital gambling compliance certification mechanism.

Organizational Features

- Legal Registration: Fully registered in Kiribati with international legal effect (No. 170).
- Global Reach: Business expansion across Asia, Europe, America, and Africa.
- Technology-Driven: Employs blockchain, AI, and big data to ensure fairness, transparency, and secure operations.
- Responsible Gambling: Advocates moderate entertainment, with profits supporting education, sports, and public welfare initiatives.

Vision

- Build a globally leading digital gambling and entertainment group.
- Promote transparency, compliance, and institutionalization in the gambling industry.
- Develop a global gambling ecosystem centered on responsible gaming and public welfare.
- Become a global leader in the digital entertainment industry.

Leadership

- Honorary Chairpersons: Alan Dong, Peter Yao, Chen Yinzhi, Zheng Baoguo
- Chairman: Li Mengyang

Chairman Li Mengyang also serves as Chairman of World Digital Finance International Holdings Groupand Chairman of World Digital Stock Exchange. With a PhD in Finance, he brings decades of experience in international finance, commodity trade, exchange management, and advanced research in digital economy and big data technologies.

National Committee for Ecological Environment Governance and Sustainable Development （CEGSD）

The National Committee for Ecological Environment Governance and Sustainable Development (CEGSD) is a specialized committee under the World Governance and Strategic Cooperation International Organization (WGSC), headquartered in Hainan Free Trade Port, China. CEGSD is dedicated to implementing the United Nations Sustainable Development Goals (SDGs), promoting global ecological governance, green transformation, and sustainable development.

With an international perspective, the Committee integrates expertise and resources from environmental protection, green technology, ecological restoration, and circular economy fields to establish a transnational collaborative governance mechanism, providing strategic guidance, policy recommendations, and technical support for addressing global challenges such as climate change, resource scarcity, and ecological degradation.

Core Responsibilities and Objectives

1. International Strategic Planning and Policy Guidance
   - Formulates global strategies for ecological governance and sustainable development.
   - Provides actionable policy recommendations and top-level strategic support to governments, international organizations, and institutions, promoting a resource-efficient and environmentally responsible global society.
2. Cross-Border Collaboration and Resource Integration
   - Leverages global networks to integrate advanced technologies, capital, and expertise.
   - Promotes information sharing, technical exchanges, and efficient international governance for ecological civilization development.
3. Key Projects and Demonstration Initiatives
   - Implements projects in air, water, and soil remediation, ecological restoration, and green energy transition.
   - Focuses on abandoned mining areas, addressing heavy metal contamination, water degradation, and vegetation loss through comprehensive remediation methods, including bioremediation, chemical stabilization, and ecological wetland construction.
   - Drives regional ecological reconstruction, economic transformation, and green mining demonstration models.
4. Global Environmental Monitoring and Risk Early Warning
   - Establishes international monitoring networks and risk early warning systems.
   - Utilizes big data and AI to conduct real-time ecological assessment, issue alerts, and enhance emergency response and governance precision.
5. Public Engagement and International Collaboration
   - Promotes ecological awareness and sustainable lifestyles through education and outreach.
   - Organizes seminars, forums, and training programs to facilitate global expert, scholar, and policymaker exchanges.

Institutional Advantages and Vision

CEGSD leverages Hainan's strategic location and WGSC's international platform to excel in cross-border collaboration and resource integration. Guided by science, green development, and win-win cooperation, the Committee advances ecological monitoring, risk management, restoration, and green technology innovation.

Vision

- Establish a globally replicable standardized environmental governance system.
- Seamlessly integrate ecological management with technological development.
- Develop a sustainable global ecological governance system linking multiple industries and technologies.
- Promote green infrastructure and resource utilization to support global ecological and economic development.
- Contribute to a harmonious coexistence between humanity and nature and advance the vision of a community with a shared future for mankind.

Leadership

- Chairman： David Zhou
- Vice Chairman： Zhou Mei
- Deputy Secretary-General: Feng Bin, Xu Xiudong, Qi Hao, Wu Juga

Introduction to David Zhou

David Zhou serves as the Chairman of the National Committee for Ecological Environment Governance and Sustainable Development (CEGSD). He is an experienced leader with extensive expertise in agriculture, ecological governance, and public policy, combining academic knowledge with decades of practical experience in industry development and organizational leadership.

Chairman Zhou graduated with a bachelor's degree in Chinese from Lanzhou University and is currently pursuing master's and doctoral degrees in finance at the Hong Kong Institute of Finance and Economics. He has served as a member of the Standing Committee of the 8th Hainan Provincial Committee of the Chinese People's Political Consultative Conference, convener of the agricultural sector, and chairman of the Hainan Agricultural Exchange Association.

Chairman Zhou initiated and founded China's first provincial agricultural industry association and has organized and hosted over 70 major events, including conferences, inspections, negotiations, and research surveys. He pioneered agricultural media initiatives, publishing a special edition of "Tropical Agriculture" with a circulation exceeding 400,000 and founding the "China Agricultural Market" clipping series, published 578 times with around 100,000 copies per issue.

With decades of contributions in agriculture, urban infrastructure, and environmental governance, Chairman Zhou is committed to advancing global ecological governance, sustainable development, and cross-border cooperation through the CEGSD platform.

Global New Technology Strategy Development Committee

The Global New Technology Strategy Development Committee is a specialized committee under he World Governance and Strategic Cooperation International Organization (WGSC), headquartered in Shenzhen, China. The Committee advances the United Nations Sustainable Development Goals (SDGs) by promoting research, development, application, and industrial deployment of new technologies. Its focus areas include new energy, AI, smart communities, environmental plastic bans, and the green transformation of the digital economy.

With an international perspective, the Committee integrates expertise across emerging technologies, digital economy, low-altitude economy, circular economy, and smart living. It establishes transnational collaborative governance mechanisms, providing strategic guidance, policy recommendations, and technical support to address challenges such as global economic revitalization, data security, and virtual-to-physical transformation. Its key departments include Blockchain Technology Application, Asset Digitalization and Encryption, AI and Chips, New Energy Technology Application, and Big Health Life Science.

Core Responsibilities and Objectives

1. International Strategic Planning and Policy Guidance: Formulate global strategies for digital economy and sustainable development, offering actionable recommendations and top-level design for governments, international organizations, and institutions to advance industrial digitalization, resource efficiency, and environmental sustainability.
2. Cross-border Collaboration and Resource Integration: Consolidate cutting-edge technologies, capital, and management expertise across international trade, finance, AI, green transition, and circular economy, establishing efficient cross-border governance mechanisms and fostering global collaboration.
3. Key Projects and Model Initiatives: Implement international demonstration programs in industrial upgrading, digital transformation, healthcare digital governance, high-tech innovation, and green energy transition. Focus on challenges including environmental remediation in African Union and SICA regions, digital mining and industrial transformation, cross-border settlement systems, and foreign exchange shortages. These projects drive global resource complementarity, financial connectivity, and technology sharing.
4. Global Asset Tokenization and Risk Alerting: Collaborate with international institutions to establish a global RWA digitalization and risk monitoring system, using AI and big data for real-time assessment of digital economy dynamics, issuing risk alerts, and enhancing governance precision for international digital economy and data security.
5. Public Engagement and International Collaboration: Promote global awareness of digital economy and emerging technologies, including AI, chips, drones, smart home systems, low-altitude economy, new energy vehicles, and robotics. Organize international seminars, forums, and training programs to facilitate expert exchange and advance joint technological adoption and sustainable development.

Institutional Advantages and Vision

Leveraging Shenzhen's technological ecosystem, talent pool, and the WGSC international platform, the Committee excels in cross-border collaboration and resource integration. Guided by science, green development, and win-win cooperation, it advances industrial digitalization, big data risk monitoring, financial ecology, and green innovation.

Looking forward, the Committee will deepen international cooperation, focus on upgrading outdated production capacities, support economic revitalization and poverty alleviation, promote technological solutions for global development, and contribute to a sustainable, harmonious, and prosperous Earth. The Committee embodies a pragmatic, innovative approach, integrating global expertise and leveraging emerging technologies to drive economic revitalization, ecological governance, and sustainable development worldwide.

Leadership

- Chairman：Chen Yinzi
- Secretary-General: Jacky Zheng
- Co-Chair: Zhang Xueqin
- Vice Chairman：Tomax Zhu
- Deputy Secretary-General: Wang Yafeng, Sun Jianwei
- Director of the Secretariat: Marshall Ma
- Director of Strategic Analysis Department: Claire Sun
- Director of Strategic Partnership Alliance Center: Johnny Chen

Introduction to Chen Yinzi

Chen Yinzi serves as the Chairman of the Global New Technology Strategy Development Committee. He brings decades of experience in international finance, commodity trade, and cross-border supply chains, with deep expertise in the digital economy and big data technologies.

Chairman Chen leads the Committee in advancing technology-driven international trade and resource transactions, facilitating collaboration across multiple sectors. Under his guidance, the Committee promotes innovative applications of emerging technologies, strengthens global partnerships, and drives strategic development initiatives to support sustainable growth, digital transformation, and cross-border economic cooperation.

Introduction to Jacky Zheng

Jacky Zheng serves as the Secretary-General of the Global New Technology Strategy Development Committee. He specializes in strategic planning in the fields of internet, mobile internet, and digital economy. With over a decade of experience in corporate consulting, model design, and education and training, he has conducted in-depth research on commercial digital marketing, data asset planning, and corporate digital transformation.

Secretary-General Zheng has held key positions including Executive Secretary-General of the Boao Global Digital Economy Summit. He has received numerous accolades, such as the "Asia's Strongest" Star Lecturer (2018), "Gold Medal Mentor" at the 54th Shanghai Beauty Expo China-fashion Rise Conference (2020), and the Lifetime Achievement Award at the 13th Golden Eagle Festival and Influencer Live Streaming Awards Ceremony (October 2020).

He also served as an advisor for the “Micro! Idols” program and as a strategic advisor to Guomei Superstores. In addition, he is the founder of the Community Fan Economy Mastery Center for New Retail Empowerment. Secretary-General Zheng’s expertise spans digital strategy, corporate transformation, and innovative marketing, making him a leading figure in driving digital economy initiatives.

Introduction to Tomax Zhu

Tomax Zhu has over a decade of expertise in the internet, mobile internet, and digital economy sectors. He specializes in corporate strategy, business model innovation, digital transformation solutions, and ecosystem development.

Currently, he serves as Chief Product Officer (CPO) at Hangzhou Tiantong Zhiyuan Technology Co., Ltd. and Chief Operating Officer (COO) at Focus Vision (Hangzhou) Artificial Intelligence Co., Ltd. He is also a core partner of Volcano Engine’s Focus Vision initiative.

Zhu is a recognized thought leader and was an invited speaker at the 2025 TED Conference. He has long been committed to driving the integration of cutting-edge technologies with practical business applications, advancing innovation and digital transformation across industries.

Introduction to Wang Yafeng

Wang Yafeng serves as Deputy Secretary-General of the Global New Technology Strategy Development Committee. He brings over twenty years of experience in the pharmaceutical industry and has cultivated an extensive international business network across dozens of countries and regions.

Deputy Secretary-General Wang specializes in cross-border resource integration and strategic collaboration, actively promoting global healthcare projects and industrial development. He is committed to building efficient international health service systems and has led impactful initiatives, including directing medicine donations valued at over five million RMB during the pandemic.

Introduction to Sun Jianwei

Sun Jianwei serves as Deputy Secretary-General of the Global New Technology Strategy Development Committee. He is an expert in digital commerce, having provided consulting services to over a thousand enterprises, including leading brands such as Mengniu and China National Pharmaceutical Group.

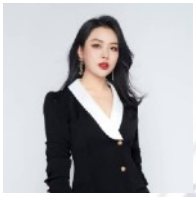

Deputy Secretary-General Sun specializes in private domain growth, business model innovation, and strategic resource integration. He plays a key role in advancing the Organization’s industrial synergy and fostering the development of its digital ecosystem.

Introduction to Marshall Ma

Marshall Ma serves as Director of the Secretariat of the Global New Technology Strategy Development Committee. He demonstrated strong organizational leadership and entrepreneurial skills during his university years and has since held senior management roles in multiple technology and culture-focused enterprises.

Director Ma specializes in corporate strategic planning, nationwide business implementation, cross-departmental coordination, and resource integration. Leveraging his expertise in AI enterprise applications and digital services, he supports the systematic operation of the Secretariat and ensures the effective execution of strategic projects.

Introduction to Claire Sun

Claire Sun serves as Director of the Strategic Analysis Department of the Global New Technology Strategy Development Committee. She is an experienced omni-channel marketing strategist with a strong background in government-enterprise collaboration and brand globalization.

Director Sun has led multiple large-scale marketing initiatives as a designated service provider for provincial industry platforms. Her expertise in brand positioning and cross-border resource integration allows her department to deliver critical analysis and strategic guidance, supporting the Organization's global market expansion efforts.

Introduction to Johnny Chen

Johnny Chen serves as Director of the Strategic Partnership Alliance Center of the Global New Technology Strategy Development Committee. He holds degrees in Statistics from the University of Waterloo and Data Analytics from Boston University, equipping him with strong analytical expertise.

Director Chen has extensive experience in client management at Zhejiang Merchant Asset Management and in leadership roles at an international trade company, gaining expertise in cross-border business development and strategic collaboration. He leverages this integrated business perspective to strengthen the Organization's global partnerships and international cooperation initiatives.

WGSC Presidium Meeting Held in Changsha

On October 4, 2025, the Presidium Strategic Meeting of the World Governance and Strategic Cooperation International Organization (WGSC) convened at Jimei Company, Changsha, Hunan Province. The meeting was presided over by Chairman Alan Dong and coordinated by Secretary-General Peter Yao. Vice Chairmen Chen Yinzhi, Li Mengyang, Zheng Baoguo, Zhang Xueqin, and Zheng Qingyuan were also in attendance.

As an executive platform under the World Organization of Governance and Competitiveness (WOGC), WGSC operates in accordance with the WOGC Charter to implement strategic cooperation and global governance initiatives.

During the session, the Presidium reviewed WGSC's organizational structure, international cooperation roadmap, and future development priorities. Participants reached a consensus on enhancing WGSC's global presence, strengthening partnerships in sustainable development, digital economy, and scientific innovation, and advancing long-term strategic goals.

Chairman Alan Dong highlighted WGSC's role as a bridge for international collaboration under the WOGC framework, while Secretary-General Peter Yao emphasized professional governance capacity building to contribute to global peace, prosperity, and shared progress.

The Changsha meeting marks a significant step in WGSC's international strategy, reflecting WOGC's growing influence in promoting multilateral dialogue and practical regional cooperation.

Epilogue

As the United Nations celebrates eighty years of peace and progress, we stand together at a new crossroads of global governance.

For ten years, WOGC has upheld its mission with conviction and purpose, uniting nations and people toward a shared future of harmony and prosperity.

Let us continue to sail forward with peace as our vessel and cooperation as our sail toward a world that is more inclusive, just, and enduring.

——World Organization of Governance and Competitiveness (WOGC)

ADVANCING GLOBAL COOPERATION AND SHARED PROSPERITY FOR ALL HUMANITY

ABOUT THIS COMMEMORATIVE EDITION

The “United Nations 80th Anniversary · WOGC 10th Anniversary Commemorative Edition” is dedicated to celebrating the 80th Session of the United Nations General Assembly and the 10th Anniversary of the World Organization of Governance and Competitiveness (WOGC).

This edition offers a special retrospective on WOGC’s significant achievements over the past decade in advancing global peace, sustainable development, and digital transformation. It highlights the joint efforts of nations working together through dialogue, partnership, and a shared vision to build a brighter and more harmonious future for all.
